Section E: Principle-wise Performance

Principle 1: Ethics, transparency and accountability

1. **Does the policy relating to ethics, bribery and corruption cover only the Company? Does it extend to groups, joint ventures, suppliers, contractors, NGOs and others?**

The Company's Code of Ethics and Business Conduct and Anti-Corruption Policy covers aspects of improper payments, insider trading, anti-corruption and financial integrity, amongst others. These are applicable to the Company's employees, Directors and business partners. In addition, the Company has a Supplier Code of Ethics and Business Conduct for its suppliers and a Partner Code of Ethics and Business Conduct for its partners. For more information visit: <http://www.oracle.com/us/corporate/supplier/coe-070625.pdf> and <https://www.oracle.com/partners/en/how-to-do-business/opn-agreements-and-policies/019520.pdf>.

2. **How many stakeholder complaints have been received in the past financial year and what percentage was satisfactorily resolved by the management?**

In relation to policies governing bribery and corruption, there were no complaints received in the Financial Year 2021-22.

In relation to policies governing ethics, there was one complaint pending redressal at the beginning of the year and the same was resolved as on March 31, 2022. We received six complaints during the Financial Year 2021-22 out of which one complaint was resolved as of March 31, 2022.

Principle 2: Safe and sustainable products and services

1. **List up to 3 of the Company's products or services whose design has incorporated social or environmental concerns, risks and / or opportunities.**

The Company makes software products and therefore this area is not applicable. However,

- a) The Company has implemented an e-delivery mechanism for its software thereby saving on physical media and infrastructure needed for shipping the media. This has improved the productivity and made it environment friendly.
- b) The Company maintains energy efficient office workspaces and provides advanced communication infrastructure to reduce travel, thereby saving time and fuel.
- c) The Company fully adheres to the guidelines regarding environment friendly disposal of e-waste. The Company engages specialized Pollution Control Board ("PCB") authorized vendors for e-waste disposal.

2. **For each such product, provide the following details in respect of resource use (energy, water, raw material, etc.) per unit of product (optional):**

- a) **Reduction during sourcing / production / distribution achieved since the previous year throughout the value chain?**

Not applicable.

- b) **Reduction during usage by consumers (energy, water) achieved since the previous year?**

Not applicable.

3. Does the Company have procedures in place for sustainable sourcing (including transportation)? If yes, what % of the Company's inputs were sourced sustainably?

The Company strives to reduce environmental impact by employing sustainable procurement practices and limiting business travel, wherever possible. In the process of selecting suppliers for products / services required, suppliers are first evaluated through a set of pre-qualification criteria that includes BR-related aspects such as adherence to norms of compliance, Code of Ethics and Business Conduct and existence of Environment, Health and Safety (EHS) policies. The Company chooses options with lower environmental impact and select the environmentally preferable offerings of suppliers. For more information, see the Oracle Sustainable Procurement Statement: <https://www.oracle.com/assets/sustainable-procurement-statement-3305088.pdf>.

4. Has the Company undertaken any steps to procure goods and services from local and small producers, including communities surrounding their place of work?

The Company engages with both local and global suppliers. Purchases are driven by open and transparent non-discriminatory procurement policy. The Company has enrolled multiple suppliers with preference to local vendors in several areas such as office catering, local transportation, subcontracted resources, etc.

5. Does the Company have a mechanism to recycle products and waste? If yes, what is the percentage of recycling of products and waste? Also provide details. (Separately as < 5 %, 5-10 %, > 10 %)

The Company strives to recover, reuse, or recycle its workplace tools.

- The policy for asset sale, donation, and disposal outlines what employees should do with technology assets that are not being fully utilized or have reached their end of useful life.
- Computers, monitors, computer accessories, printers, scanners, projectors, and more are collected and managed by the technology recovery and e-waste recycling program.
- Surplus equipment from one department is given to another for immediate use, and assets that must be retired are mined for their useful parts before being donated or recycled.
- The Company discourages use of paper wherever feasible. Internal systems and processes have been designed to process significant number of transactions in a paperless mode.
- Sewage treatment plants are installed in the Company's owned office premises (Mumbai, Pune and Bengaluru) where treated water is re-used for non-drinking purposes.
- Compost Machines are installed in the Company's owned office premises (Mumbai, Pune and Bengaluru) where the wet waste is recycled and the manure generated is used for landscaping.
- The Company follows the process of safe handling and disposal of e-waste. Specialized agencies are hired to carry out the e-waste disposal as per the applicable local norms and in an environment friendly manner.
- The Company has a record archival and disposal policy that strives to enable off-site storage of documents and safe discarding of old records.
