

# Is financial aid slowing down your institution?

Student debt continues to be a massive issue for students in the United States who collectively owe an estimated \$1.5T in loans. Navigating cost and financial aid is a crucial step in a complex higher education process towards students getting a college degree.

## A majority of students cannot afford college

**82%**

of traditional undergraduate students receive financial aid

**250B**

awarded in US federal student aid every year

## Cost holds back students from obtaining a degree

## Financial aid is key to student success

See how **Oracle Student Financial Planning** can help improve student outcomes

**Student centric**  
Increases student outcomes while borrowing aid responsibly

**Flexible educational events**  
Supports traditional programs and continuing education

**Extreme automation**  
Optimizes processing rate for aid, award packaging, disbursement, credit balance and refunds

**Compliance support**  
Increases accuracy due to real-time synchronization with government systems

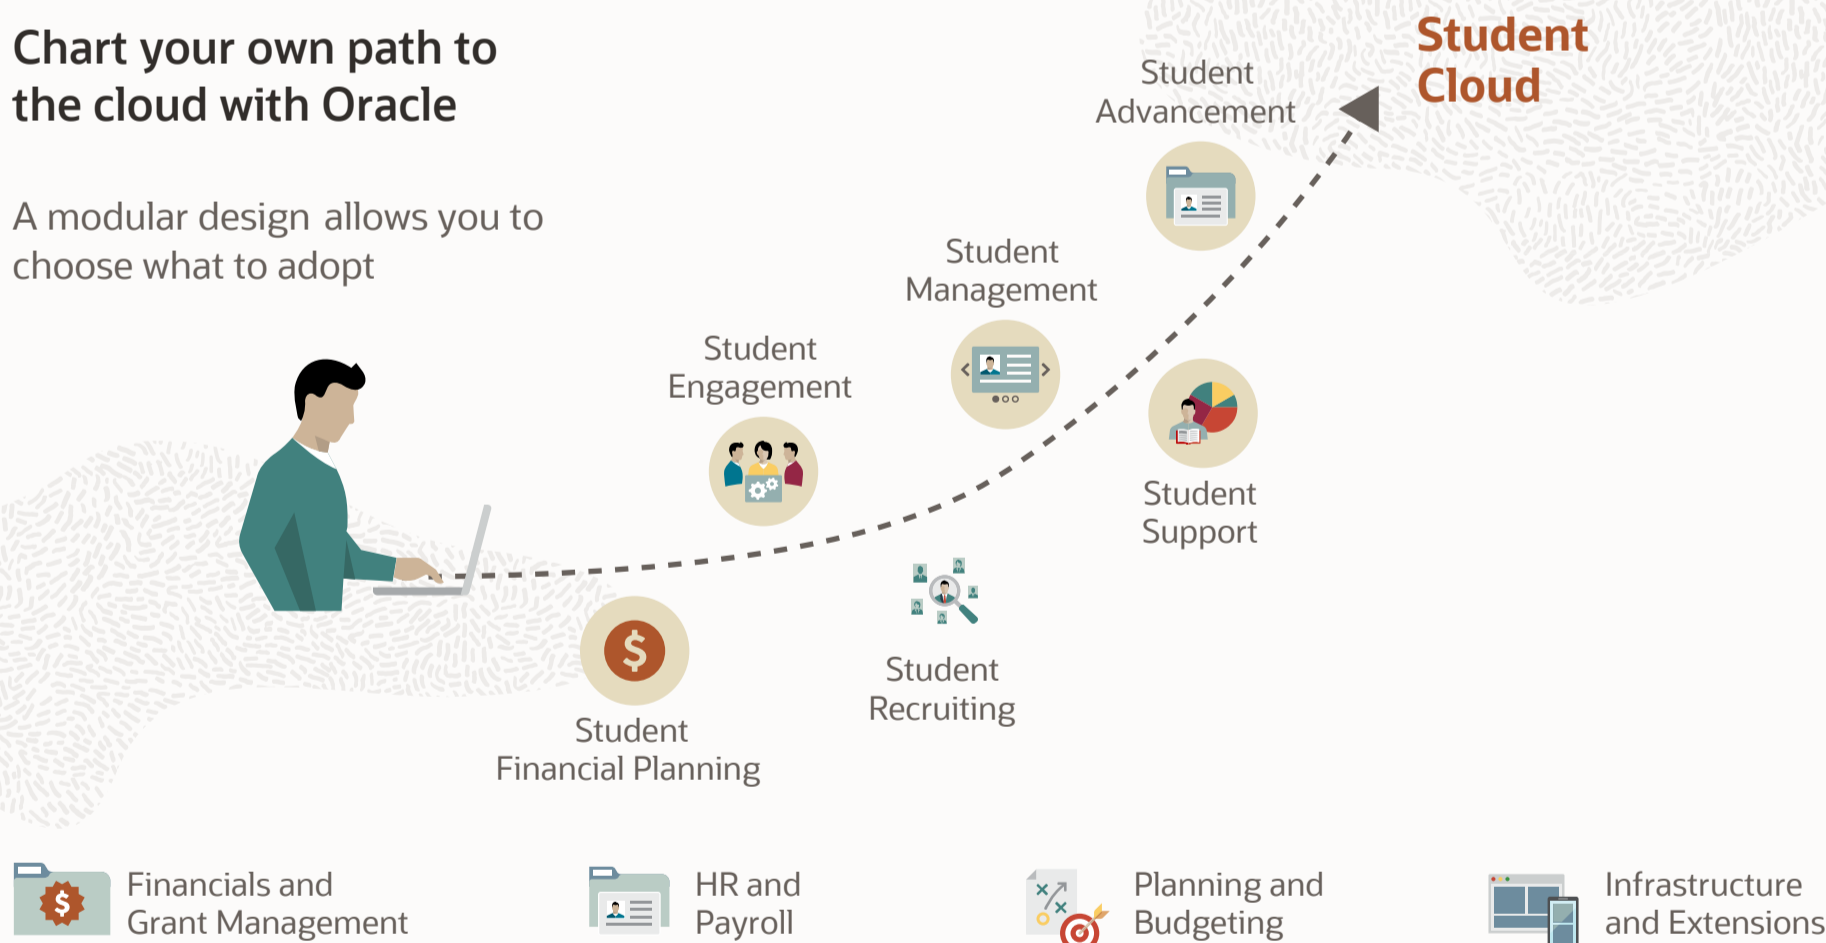

**Integrations**  
Integrates seamlessly with any legacy on-premise SIS or cloud-based system

## Are your systems future-proof

Chart your own path to the cloud with Oracle

A modular design allows you to choose what to adopt

“ Cost should not be the gating factor in individuals getting the education they desire. With Oracle Student Cloud, we will have the tools we need to improve student success by delivering a more transparent and effective financial aid experience. **Pete Williams, CIO at Butler University** ”

## For more information
