Smart Phone

91%

Let's talk about the future of cloud

A robust
cloud

Where you
need it

That works
well with others

We built OCI with a specific focus

Demanding
workloads

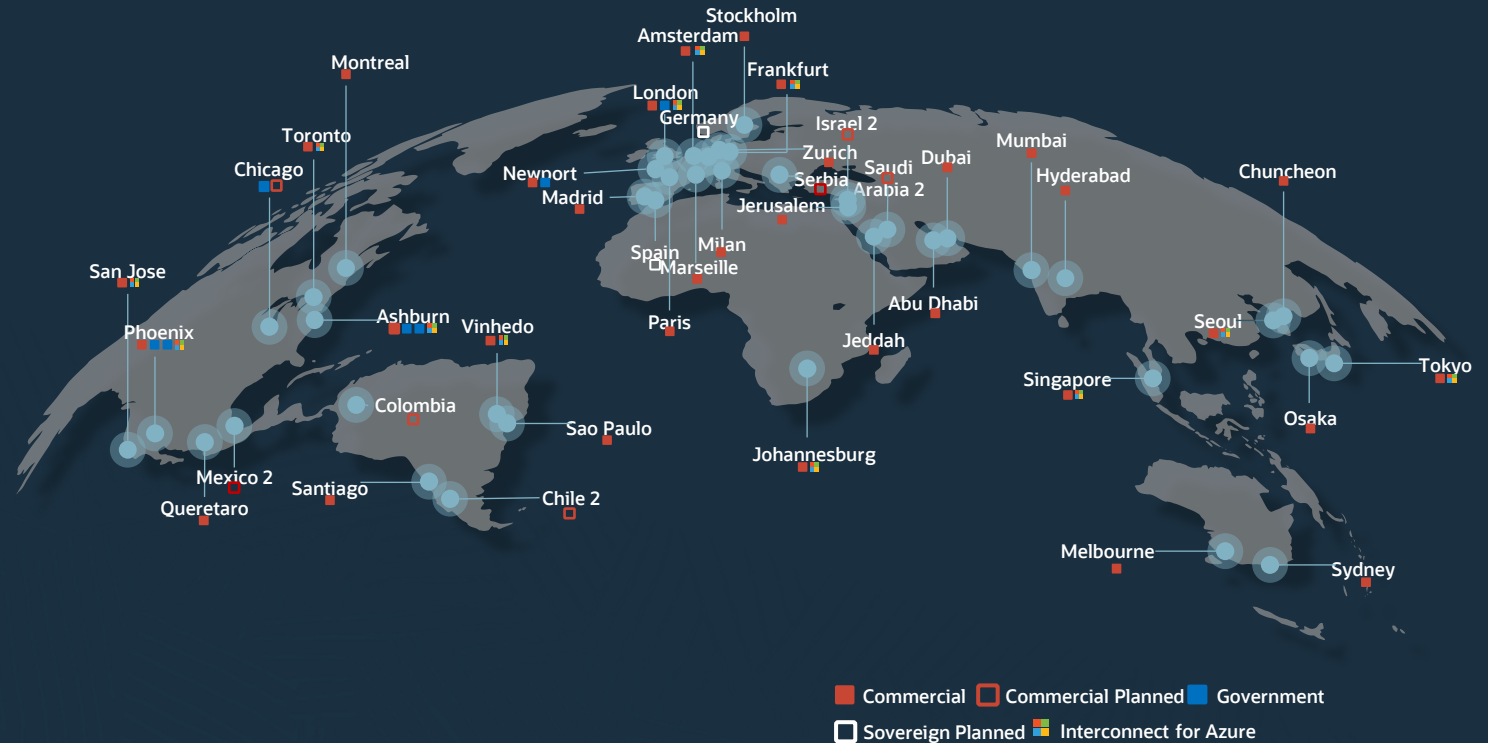

Highest
security

Performance
and efficiency

Oracle Cloud Infrastructure Global Footprint

41 Oracle Cloud Regions now 9 planned regions

- Excluding our Sovereign Cloud Regions and National Security Cloud Regions

How We Respond to Customers' Demands

What we've heard from customers

"I cannot ensure, performance, isolation and security on the cloud"

"One cloud is rarely the answer"

"It's too hard to migrate most of our apps"

"We've made significant investments in specific technologies, and don't want to change."

"We want to use our data more effectively"

OCI's distributed cloud provides the flexibility to consume cloud services across a choice of clouds and locations

OCI's architecture gives enterprise apps the security, performance, and scale without costly re-architectures

Services to easily run third-party, open-source, or cloud native applications

Build or improve any data management strategy, with unique capabilities to converge data

OCI's Unique Architecture

Flex infrastructure

Precise resource fit

Off-box virtualization

Isolation for security, performance, and economics.

Nonblocking networks

L2 network virtualization

Network optimized for performance and service reliability

RDMA cluster networking

Powers New and Existing Workloads

Traditional apps

Performance, elastic benefits without re-architecture, modernize incrementally

HPC / Machine Learning

Scale up to 20,000 CPUs or 512 GPUs in a cluster

Compute-intensive apps

Bare metal instances for CPU and GPUs

Network-intensive apps

No network contention, consistent network performance, lowest cost outbound in the market

Critical databases

Native database clustering, scale up to PBs and thousands of cores

*OCI (Oracle Cloud Infrastructure)

OCI is great for Oracle workloads

TOYOTA

FedEx[®]

OCI is great for
all workloads

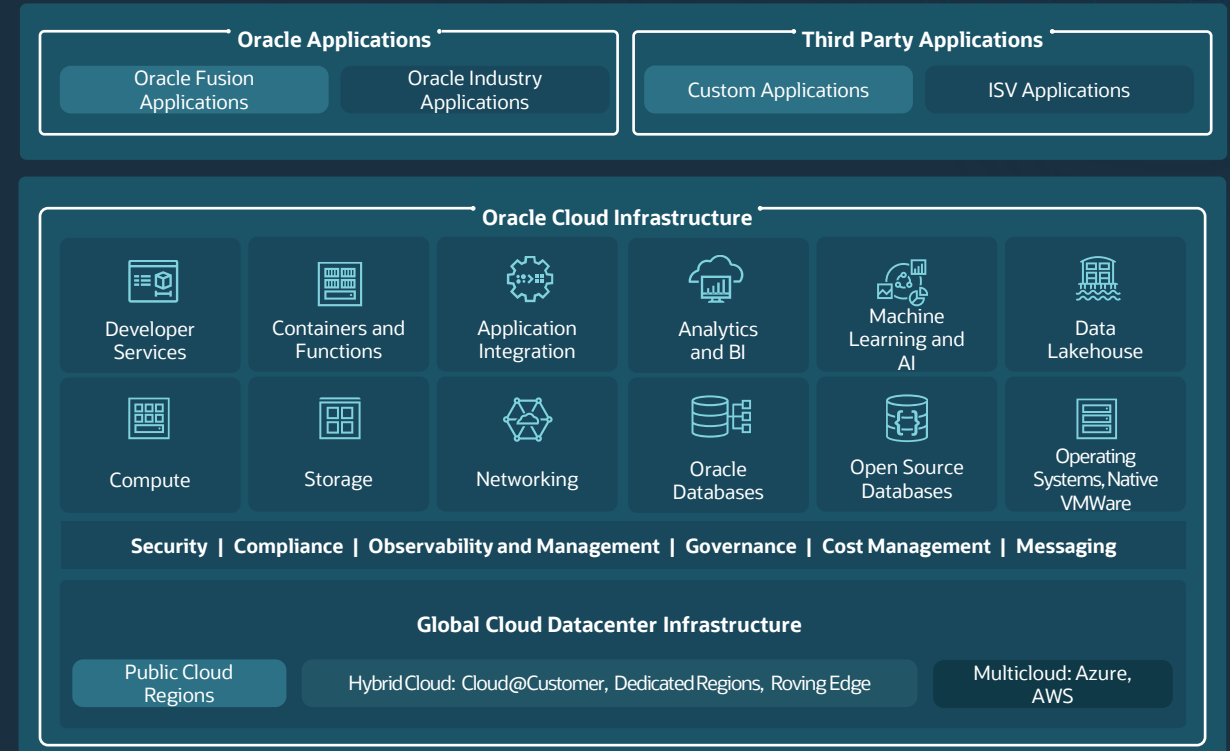

And there's more innovation to come

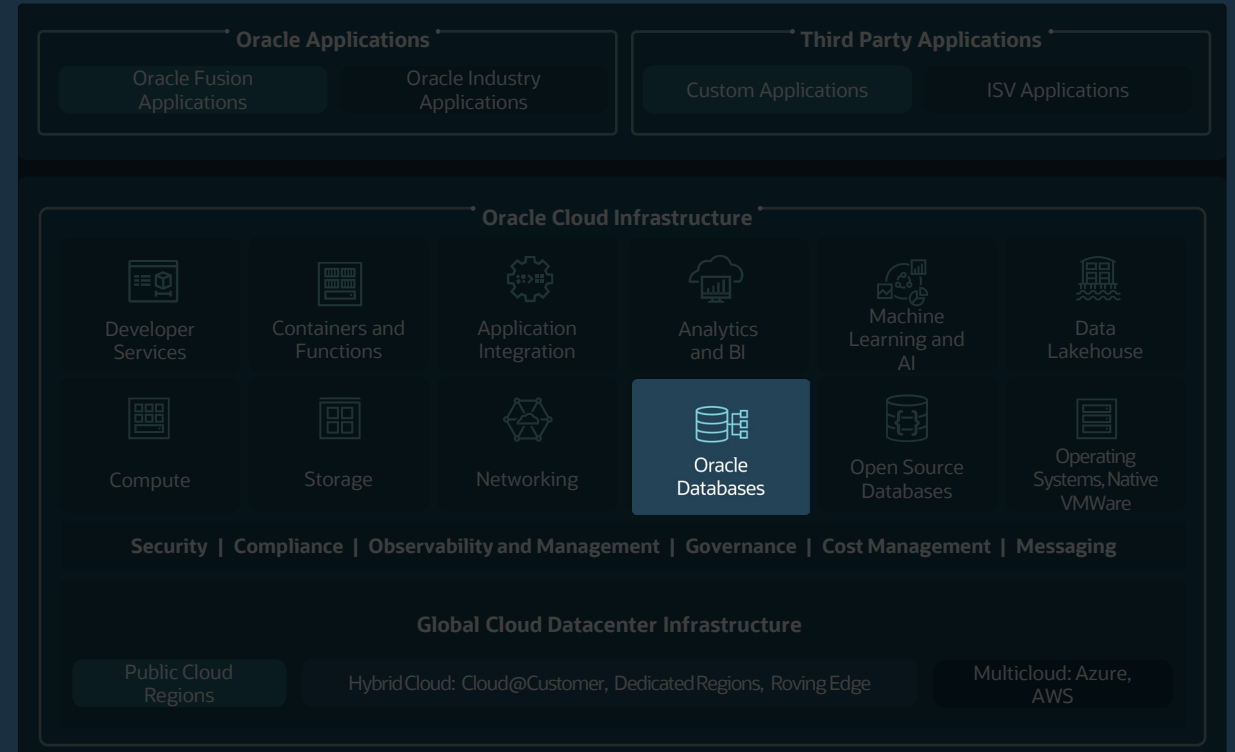

105 services

260 features launched in the last year

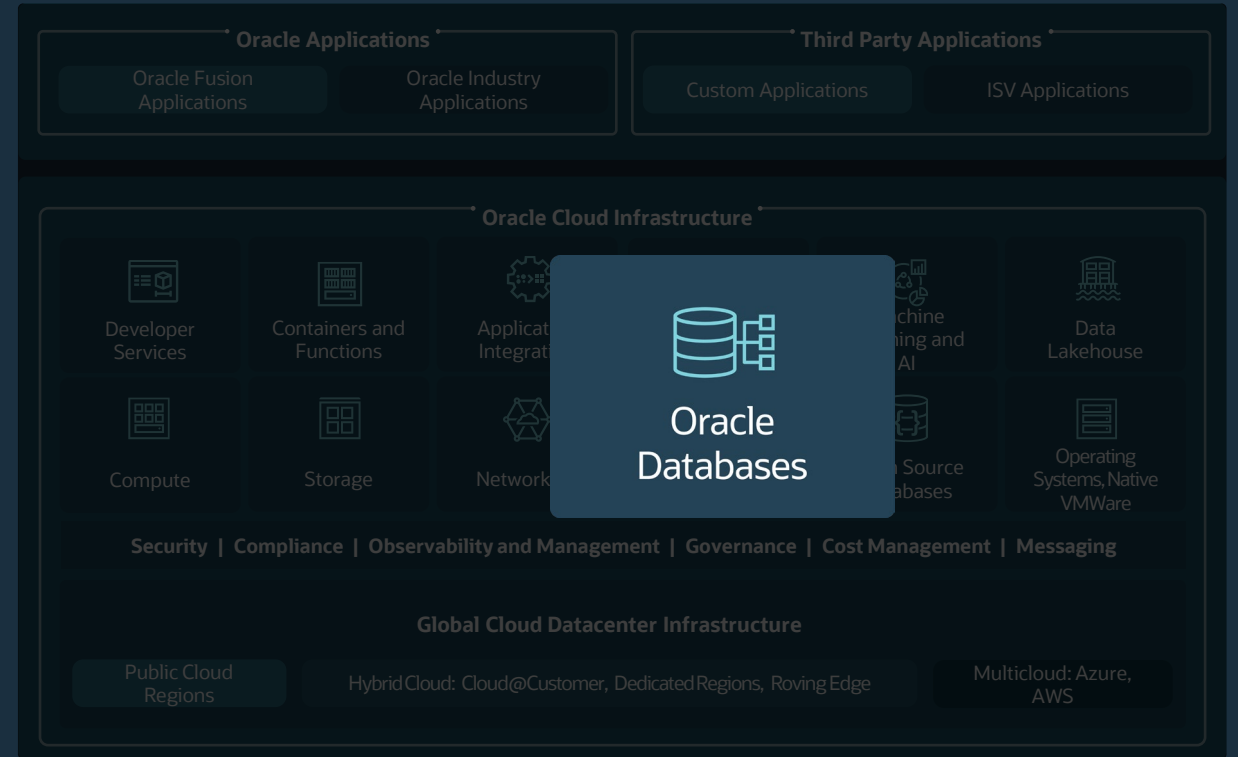

103% YoY consumption growth
in constant
currency

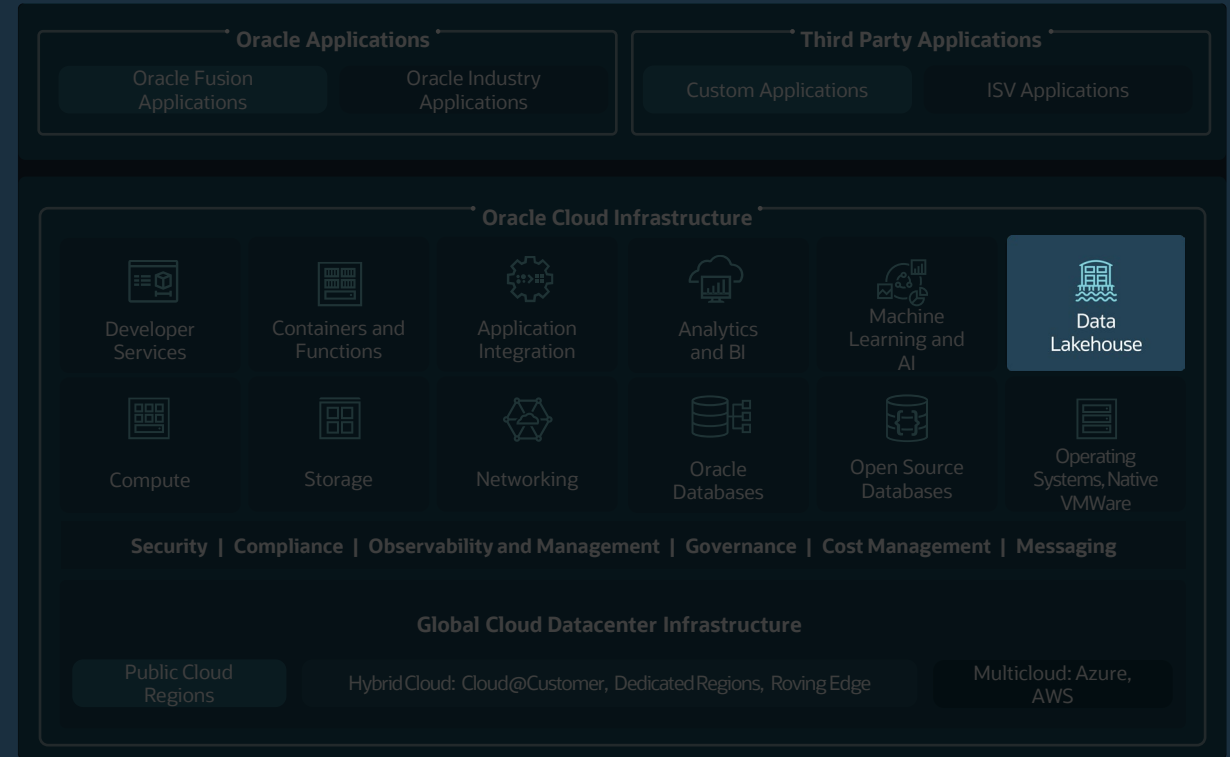

MongoDB compatibility

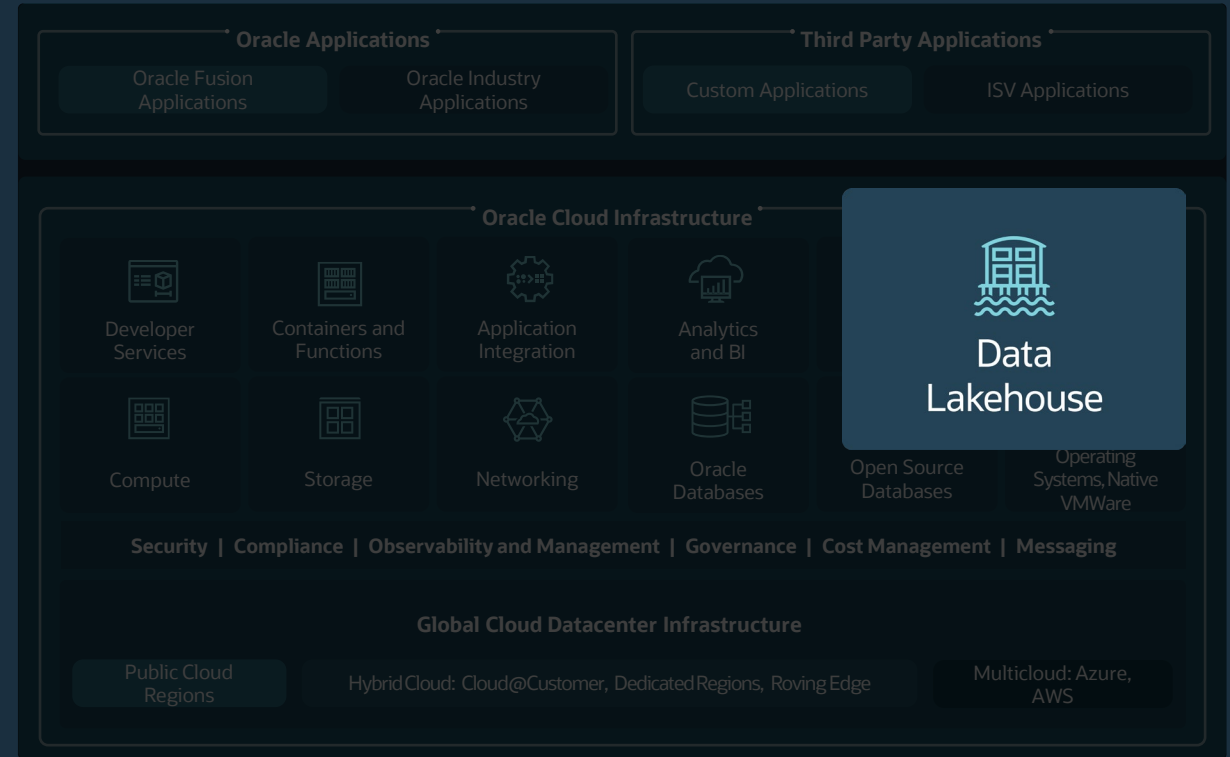

MongoDB compatibility

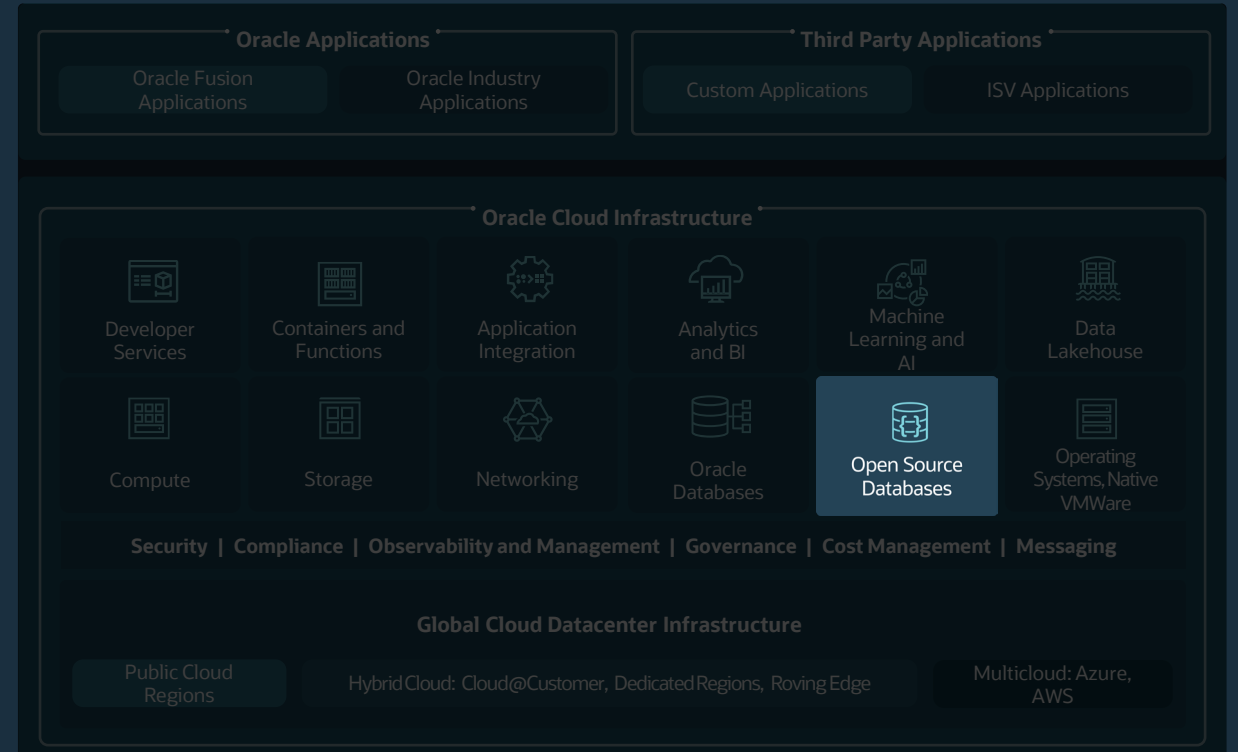

MySQL HeatWave LakeHouse

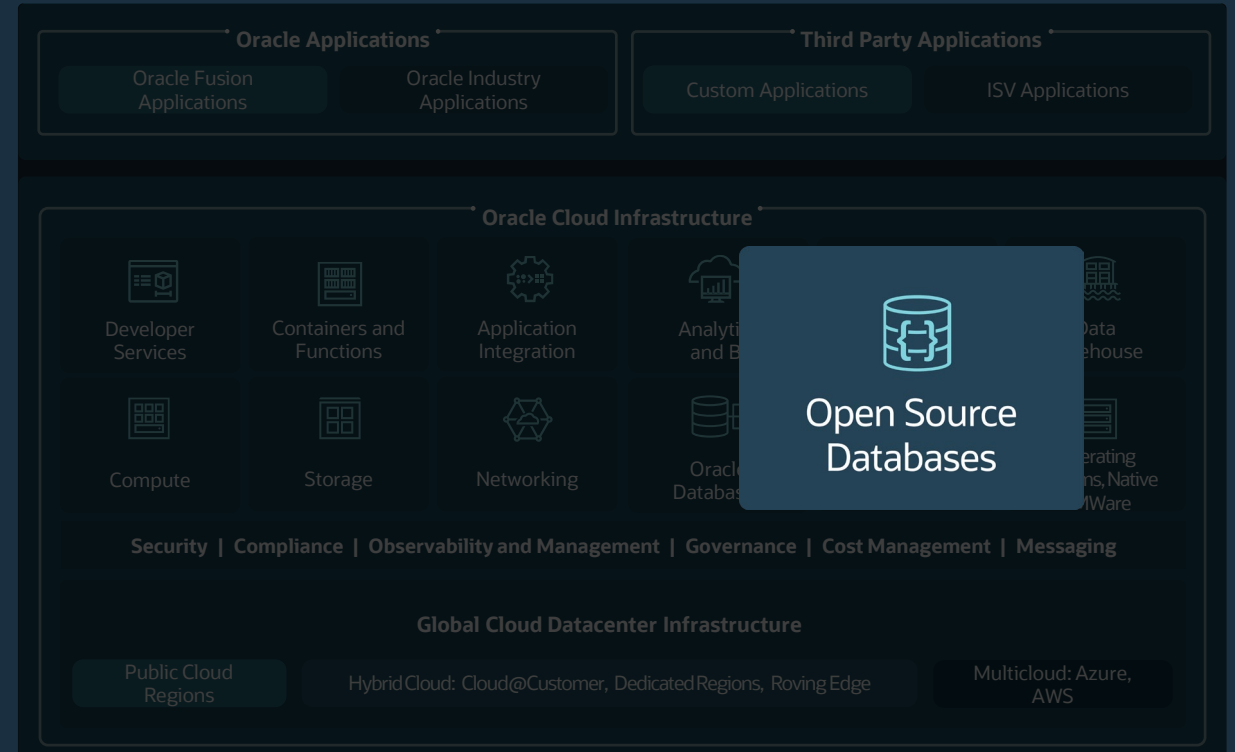

MySQL HeatWave LakeHouse

PostgreSQL Aries

PostgreSQL Aries

OCI where you need it most

82%

of large enterprises
use multiple clouds

27%

increase
from
last year

OCI's Distributed Cloud

On Premises Infrastructure

Your Higher Performance Data Centre

Oracle Exadata - On Premises purpose built, high performance Database Infrastructure

Mongo DB compatibility – build and run new MongoDB applications on Oracle DB

Hybrid cloud

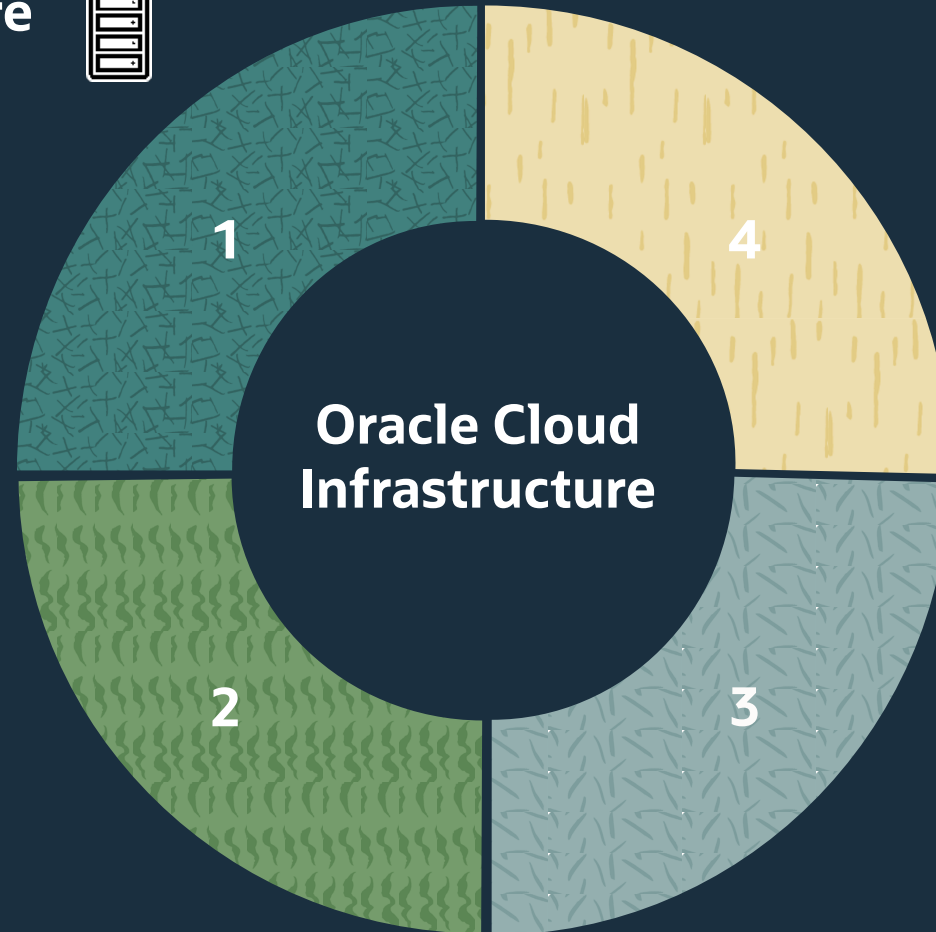

A cloud just for you

Roving Edge – portable ruggedized devices

Oracle Exadata Cloud@Customer – Cloud autonomous databases running in customer data centers

OCI Dedicated Region – All OCI services running in customer data centers

Multicloud

Our products work with your other providers

OCI Database Service for Azure – High performance OCI databases provisioned and managed through Azure

MySQL Heatwave on AWS – AWS users can run OLTP, OLAP & ML as a single native service

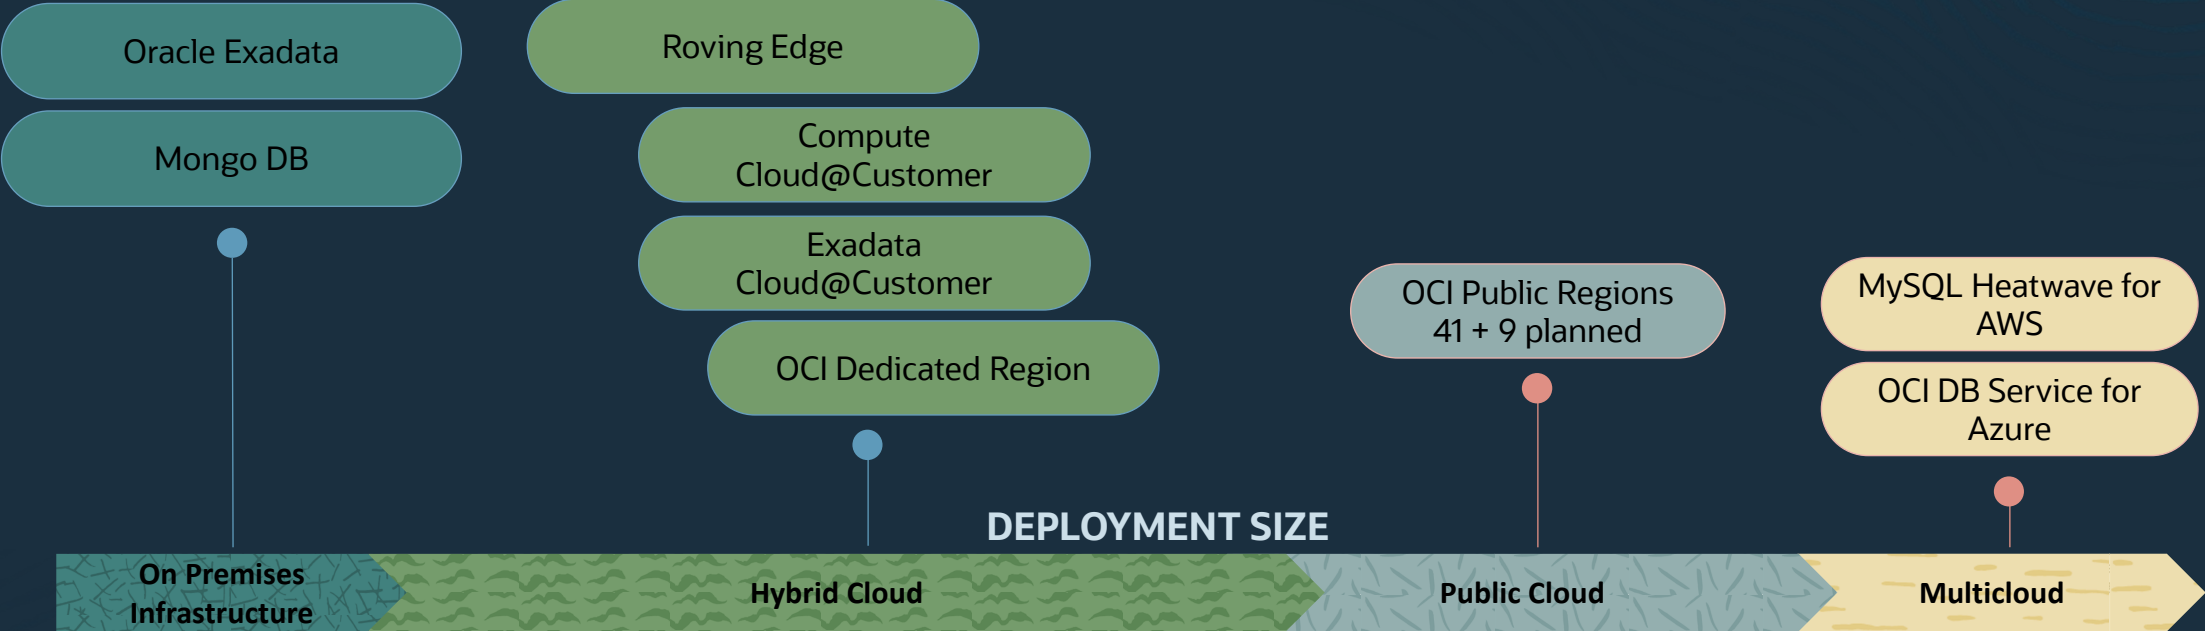

Public cloud

Access OCI cloud services from 41 global regions

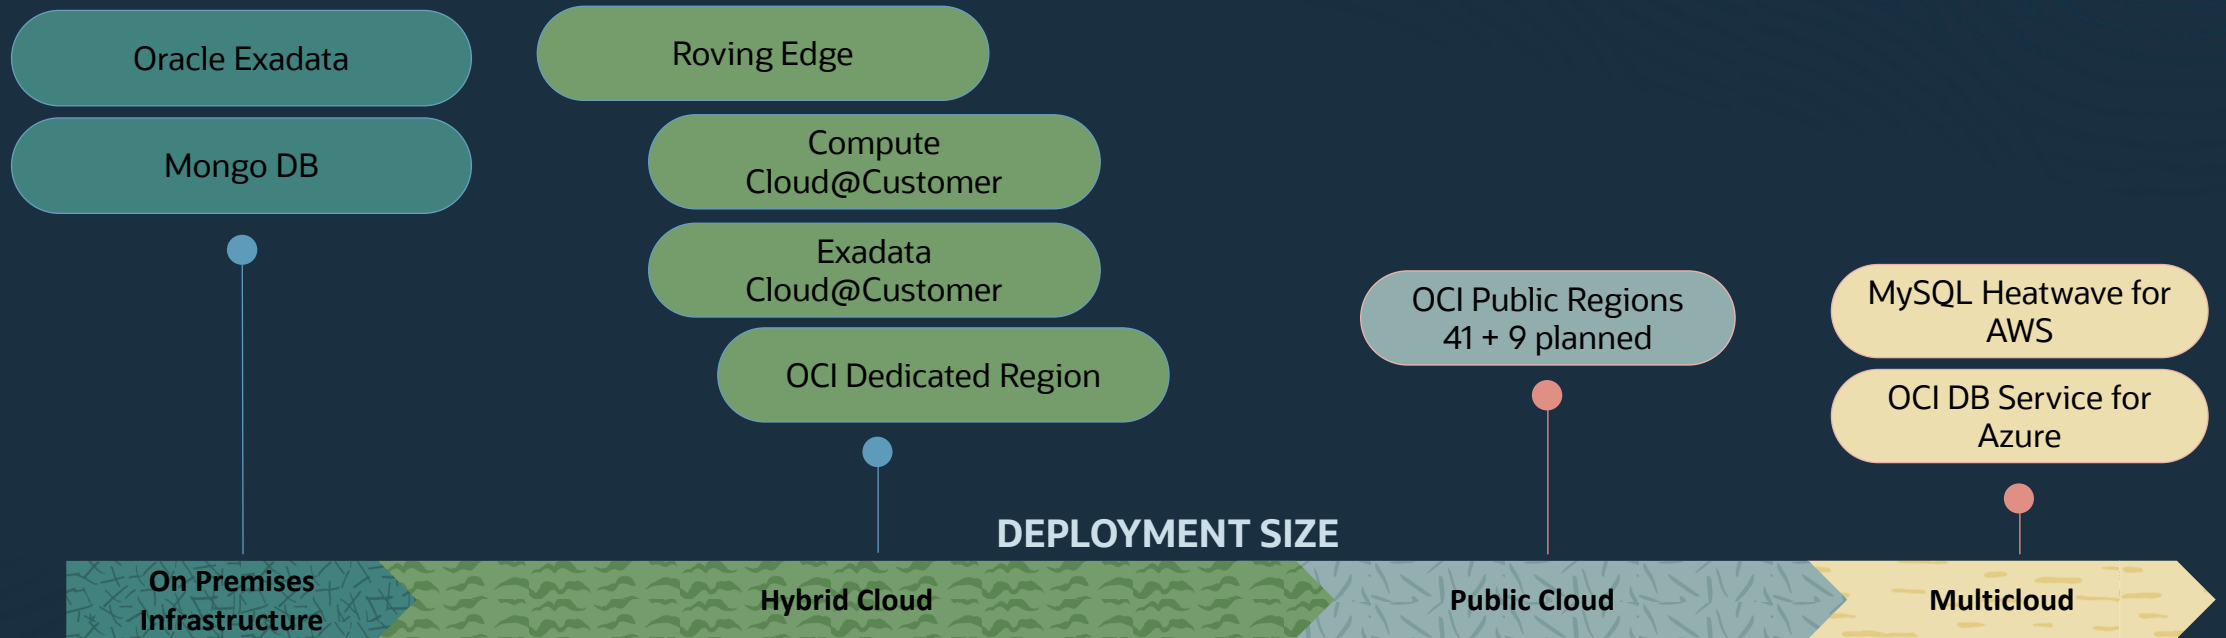

Hyperscale cloud regions in 41 worldwide locations

OCI's Distributed Cloud Spectrum

OCI's Distributed Cloud Spectrum

	Oracle Exadata	Roving Edge	Compute Cloud @ Customer	Exadata Cloud @ Customer	OCI Dedicated Region	Commercial Region	AWS Cloud Azure Cloud
Services Supported	Database	Compute / Network / Storage	Compute / Network / Storage	Database	Full Services	Full Services	Database, OLTP, OLAP, ML
Data Residence	On Premises	Remote Edge	On Premises	On Premises	On Premises	Regional	Regional

OCI's Distributed Cloud Spectrum

A grid of logos representing various customers and partners, organized by deployment size:

- On Premises Infrastructure:** Central Coast Council, eclipsx, NAMOI, Queensland Government, Rinnai, VICTORIA State Government, Department of Transport, CES, Tasmanian Government, Department of Health, Telstra, BRICKWORKS.
- Hybrid Cloud:** tranxactor, Acolade, CHILDREN'S MEDICAL RESEARCH INSTITUTE, Jeans for Genes, THE UNIVERSITY OF MELBOURNE, CARPET COURT, NRMA, NSEG, NATIONAL SOLAR ENERGY GROUP, ZIKSU.
- Public Cloud:** aspenmedical, ESSATTO, Coronado, gamma solutions, VICTORIA UNIVERSITY, impos, PROPHECY, REACH, voiteck.
- Multicloud:** StoughtonGroup, Global IT Factory.

Analysts: OCI for cost, performance and scale

Gartner®

(Oracle is) **out-innovating the market.**

Strong focus on lift & shift, **hybrid & multi cloud & HPC**

OMDIA

Oracle should **appear on your shortlist** if you need a competitive price-performance CSP with proven, enterprise-grade reliability credentials.

IDC

Oracle IaaS (OCI) receives the **highest customer satisfaction.**

RedMonk

Lower average base IaaS prices than AWS, Microsoft, Google, Alibaba, and IBM since 2018.

To help global enterprises every day

A robust
cloud

Where you
need it

That works
well with others

That's the future of cloud

ORACLE

Thank you

The background features a stylized landscape with layered, wavy mountain ranges in shades of light gray and white. A prominent dotted spiral graphic is located in the lower right quadrant, centered around the 'E' in the Oracle logo. The Oracle logo itself is rendered in a bold, red, sans-serif font.
