GLOSSARY

“**Branded Segment**” means a Contextual Segment that is obtained by and attributed to a particular third party (e.g., using third party trademarks).

“**Contextual Segment**” means the non-personally identifiable contextual classification of the content of a URL, domain, text or media, as applicable.

“**Dynamic Contextual Segment**” means Contextual Segments based on daily refreshes of keyword matches associated with subject matter selected by You.

“**Impression**” means an advertisement fetched from the advertiser or its agency’s server.

“**Segment**” means a classification of data on an individual or such individual’s behavior, or, for contextual services, the content of a URL.

“**Target**” or “**Targeting**” means the display of a media impression, advertisement, web page or other content to a unique user of a web browser or device (including mobile device).

“**Your Client**” means the client identified in Your order.

ORACLE CONTEXTUAL INTELLIGENCE

Oracle Contextual Targeting – 1000 Impressions

Description of Services: This Service provides You or Your Client the following groups of Contextual Segments from Oracle Contextual Targeting - Metered Commit services.

Eligible **Oracle Contextual Targeting - Metered Commit** services:

Oracle Contextual Targeting - Metered Commit
Oracle Contextual Targeting
Description of Services: This Service provides Contextual Segments pre-defined by Oracle.
Oracle Contextual Custom Targeting
Description of Services: This Service provides Contextual Segments pre-defined by You or Your Client. Upon mutual agreement, digital content specifically requested by You or Your Client may be classified by Oracle into these Contextual Segments.
Oracle Contextual Advanced Targeting
Description of Services: This Service provides You or Your Client with Dynamic Contextual Segments based on key word matches that are either off-the-shelf and pre-defined by Oracle or defined for a specific use by You or Your Client for digital Targeting.
Oracle Data Driven Contextual Targeting
Description of Services: This Service provides Contextual Segments comprised of groups of URLs that are modelled on consumers' interests. Data used to create these Contextual Segments is pre-defined by Oracle using Oracle's licensed data sets or provided by You or Your Clients.
Oracle Brand Safety
Description of Services: This Service allows digital content to be excluded from digital Targeting based on context. Upon mutual agreement, URLs, domains or text specifically requested by You or Your Client may be classified by Oracle into these Contextual Segments.
Oracle Verification
Description of Services: This Service provides Contextual Segments pre-defined by Oracle or by You or Your Client or that have been created from Oracle's Measurement metrics and Context Intelligence services based upon scores and values associated with a specific URL or domain related to advertising placements, according to the Media Rating Council, IAB, or Global Alliance for Responsible Media definitions (or other mutually agreed upon or Oracle-created definitions of advertising-relevant signals and metrics).
Branded Context
Description of Services: This Service provides Branded Segments.

Delivery: You will receive access to the Oracle Contextual Intelligence user interface. Contextual Segments will be delivered via API integration to pre-integrated Destinations only. A list of pre-integrated Destinations is available upon request.

Usage Limit(s):

- This Service may only be used for You and Your Client's digital advertising.
- This Service may not be used by You and Your Client to create derivative works.

Reporting: Within seven (7) business days following the end of each calendar month throughout the term of this order, You shall provide to Oracle a report which outlines Your usage and, if applicable, Your Client’s usage of the Oracle Data which will include information sufficient to enable Oracle to calculate the fees due for such calendar month (“Usage Report”).

If You do not provide a Usage Report in accordance with the preceding paragraph, then Oracle will calculate the fees based on either: (a) usage of the Oracle Data by You or Your Client according to Oracle’s own records; or (b) the previous months invoice issued to You plus an additional amount equal to 50% of the applicable net fees of aforementioned invoice; however if Oracle has not previously raised an invoice, then Oracle shall calculate the fees based on Oracle’s own estimate of the amount of usage of the Oracle Data by You or Your Client.

Unused Services: You acknowledge that the pricing for Services under the order is in consideration of the ordered quantities of such Services as well as Your commitment to pay the total net fees (as identified in the table at the top of the order) during the Services Period. You may not reduce the quantity of Services ordered, in whole or in part, during the Services Period. If You have not utilized all of the quantities of the Services under the order prior to the expiration of the Services Period, then You forfeit such remaining unused quantities and agree to pay Oracle the fees associated with such unused quantities. If You terminate the order as a result of Oracle’s uncured material breach, then this Unused Services section will not apply.

Overages: This Service is subject to overage fees. Overages are charged at the Unit Net Price for each additional quantity used in excess of the ordered quantity.

Auto-Renewal: Unless otherwise stated in Your order, this Service is subject to auto renewal.

Oracle Cloud Policies: If, as part of this Service, You provide Your Content to Oracle, then the Oracle Cloud Hosting and Delivery Policies including the Oracle SaaS Public Cloud Services Pillar Document (which may be viewed at <http://www.oracle.com/contracts>) are applicable to Your Content.

Oracle Contextual Targeting – Percent of Gross Advertising Spend

Description of Services: This Service provides You or Your Client the following groups of Contextual Segments from Oracle Contextual Targeting - Metered Commit services.

Eligible **Oracle Contextual Targeting - Percent of Gross Advertising Spend** services:

Oracle Contextual Targeting - Metered Commit
Oracle Contextual Targeting
Description of Services: This Service provides Contextual Segments pre-defined by Oracle.
Oracle Contextual Custom Targeting
Description of Services: This Service provides Contextual Segments pre-defined by You or Your Client. Upon mutual agreement, digital content specifically requested by You or Your Client may be classified by Oracle into these Contextual Segments.
Oracle Contextual Advanced Targeting
Description of Services: This Service provides You or Your Client with Dynamic Contextual Segments based on key word matches that are either off-the-shelf and pre-defined by Oracle or defined for a specific use by You or Your Client for digital Targeting.
Oracle Data Driven Contextual Targeting
Description of Services: This Service provides Contextual Segments comprised of groups of URLs that are modelled on consumers’ interests. Data used to create these Contextual Segments is pre-defined by Oracle using Oracle’s licensed data sets or provided by You or Your Clients.
Oracle Brand Safety
Description of Services: This Service allows digital content to be excluded from digital Targeting based on context. Upon mutual agreement, URLs, domains or text specifically requested by You or Your Client may be classified by Oracle into these Contextual Segments.

Oracle Verification
Description of Services: This Service provides Contextual Segments pre-defined by Oracle or by You or Your Client or that have been created from Oracle's Measurement metrics and Context Intelligence services based upon scores and values associated with a specific URL or domain related to advertising placements, according to the Media Rating Council, IAB, or Global Alliance for Responsible Media definitions (or other mutually agreed upon or Oracle-created definitions of advertising-relevant signals and metrics).
Branded Context

Auto-Renewal: Unless otherwise stated in Your order, this Service is subject to auto renewal.

Oracle Cloud Policies: If, as part of this Service, You provide Your Content to Oracle, then the Oracle Cloud Hosting and Delivery Policies including the Oracle SaaS Public Cloud Services Pillar Document (which may be viewed at <http://www.oracle.com/contracts>) are applicable to Your Content.

TEXT DATA SERVICE

Oracle Text Data Services allow You to contextually categorize websites or content through a direct integration with Oracle. Your Content may be used to deliver these Services. Personal Data is not used to deliver these Services.

Oracle Text Data Service – 1M API Calls

Description of Services: This Service categorizes content into Contextual Segments for any URL, domain or text provided by You to Oracle via an API or tag-based integration. You will also be provided: (1) off-the-shelf Contextual Segments pre-defined by Oracle; (2) Contextual Segments based on keyword matches you have defined; and (3) Dynamic Contextual Segments predefined by Oracle; (4) Dynamic Contextual Segments based on keyword matches you have defined; (5) off-the-shelf brand safety Contextual Segments pre-defined by Oracle; and (6) brand safety Contextual Segments based on keyword matches you have defined; and (7) language indicators to identify URLs or domains whose content is in the referenced language. A list of current languages is available upon written request to Oracle.

Delivery: You will receive access to the Oracle Contextual Intelligence user interface. Contextual Segments will be delivered via API integration to pre-integrated Destinations only. A list of pre-integrated Destinations is available upon request.

Usage Limit(s):

- o This Service may only be used for You and Your Client's digital Targeting.

Unused Services: You acknowledge that the pricing for Services under the order is in consideration of the ordered quantities of such Services as well as Your commitment to pay the total net fees (as identified in the table at the top of the order) during the Services Period. You may not reduce the quantity of Services ordered, in whole or in part, during the Services Period. If You have not utilized all of the quantities of the Services under the order prior to the expiration of the Services Period, then You forfeit such remaining unused quantities and agree to pay Oracle the fees associated with such unused quantities. If You terminate the order as a result of Oracle's uncured material breach, then this Unused Services section will not apply.

Overages: This Service is subject to overage fees. Overages are charged at the Unit Net Price for each additional quantity used in excess of the ordered quantity.

Auto-Renewal: Unless otherwise stated in Your order, this Service is subject to auto renewal.

Oracle Cloud Policies: If, as part of this Service, You provide Your Content to Oracle, then the Oracle Cloud Hosting and Delivery Policies including the Oracle SaaS Public Cloud Services Pillar Document (which may be viewed at <http://www.oracle.com/contracts>) are applicable to Your Content.

ORACLE IN-STREAM DATA SERVICES

These Services allow You to contextually categorize content through a direct integration with Oracle. Your Content will be used to deliver these Services. Personal Data is not used to deliver these Services. The foregoing applies to all applicable SKUs listed under "In-Stream Data Services".

Oracle Video Context Data Service – 100 Media Hours Processed

Description of Services: This Service categorizes video content provided by You to Oracle into Contextual Segments by analyzing a transcription produced by Oracle of such video content. You will also be provided: (1) off-the-shelf Contextual Segments pre-defined by Oracle; (2) Contextual Segments based on keyword matches to content selected by You; and (3) Dynamic Contextual Segments.

Delivery: You will receive access to the Oracle Contextual Intelligence user interface. Contextual Segments will be delivered via API integration to pre-integrated Destinations only. A list of pre-integrated Destinations is available upon request.

Usage Limit(s):

- This Service may only be used for You and Your Client's digital Targeting.

Unused Services: You acknowledge that the pricing for Services under the order is in consideration of the ordered quantities of such Services as well as Your commitment to pay the total net fees (as identified in the table at the top of the order) during the Services Period. You may not reduce the quantity of Services ordered, in whole or in part, during the Services Period. If You have not utilized all of the quantities of the Services under the order prior to the expiration of the Services Period, then You forfeit such remaining unused quantities and agree to pay Oracle the fees associated with such unused quantities. If You terminate the order as a result of Oracle's uncured material breach, then this Unused Services section will not apply.

Overages: This Service is subject to overage fees. Overages are charged at the Unit Net Price for each additional quantity used in excess of the ordered quantity.

Auto-Renewal: Unless otherwise stated in Your order, this Service is subject to auto renewal.

Oracle Cloud Policies: If, as part of this Service, You provide Your Content to Oracle, then the Oracle Cloud Hosting and Delivery Policies including the Oracle SaaS Public Cloud Services Pillar Document (which may be viewed at <http://www.oracle.com/contracts>) are applicable to Your Content.

Oracle Audio Context Data Service – 100 Media Hours Processed

Description of Services: This Service categorize audio content provided by You to Oracle into Contextual Segments by analyzing a transcription produced by Oracle of such audio content. You will also be provided (1) off-the-shelf Contextual Segments pre-

defined by Oracle; (2) Contextual Segments based on keyword matches to content selected by You; and (3) Dynamic Contextual Segments.

Delivery: You will receive access to the Oracle Contextual Intelligence user interface. Contextual Segments will be delivered via API integration to pre-integrated Destinations only. A list of pre-integrated Destinations is available upon request.

Usage Limit(s):

- This Service may only be used for You and Your Client's digital Targeting.

Unused Services: You acknowledge that the pricing for Services under the order is in consideration of the ordered quantities of such Services as well as Your commitment to pay the total net fees (as identified in the table at the top of the order) during the Services Period. You may not reduce the quantity of Services ordered, in whole or in part, during the Services Period. If You have not utilized all of the quantities of the Services under the order prior to the expiration of the Services Period, then You forfeit such remaining unused quantities and agree to pay Oracle the fees associated with such unused quantities. If You terminate the order as a result of Oracle's uncured material breach, then this Unused Services section will not apply.

Overages: This Service is subject to overage fees. Overages are charged at the Unit Net Price for each additional quantity used in excess of the ordered quantity.

Auto-Renewal: Unless otherwise stated in Your order, this Service is subject to auto renewal.

Oracle Cloud Policies: If, as part of this Service, You provide Your Content to Oracle, then the Oracle Cloud Hosting and Delivery Policies including the Oracle SaaS Public Cloud Services Pillar Document (which may be viewed at <http://www.oracle.com/contracts>) are applicable to Your Content.

APPENDIX: RETIRED OFFERINGS (NO SALE OR RENEWAL)

Contextual Intelligence with Custom Targeting and Predicts Targeting – 1M Impressions

Description of Services: This Service provides You or Your Client with Syndicated Targeting, Syndicated Brand Safety, Custom Brand Safety, Custom Targeting, and Predicts Targeting, as each service is described herein (including any Pre-Requisites, Usage Limits, Reporting and policies applicable to each).

Unused Services: You acknowledge that the pricing for Services under the order is in consideration of the ordered quantities of such Services as well as Your commitment to pay the total net fees (as identified in the table at the top of the order) during the Services Period. You may not reduce the quantity of Services ordered, in whole or in part, during the Services Period. If You have not utilized all of the quantities of the Services under the order prior to the expiration of the Services Period, then You forfeit such remaining unused quantities and agree to pay Oracle the fees associated with such unused quantities. If You terminate the order as a result of Oracle's uncured material breach, then this Unused Services section will not apply.

Overages: If You exceed the quantity of Services ordered, then You promptly must purchase and pay fees for the excess quantity.

Auto-Renewal: If Your order for this Service was dated before February 10, 2020, then Your Services will not auto-renew; if Your order for this Service was dated on or after February 10, 2020, then Your Services will auto-renew.

Privacy Policy: The Oracle Advertising Privacy Policy is not applicable to this Service.

Managed Text Data Services with Custom Targeting and Predicts Targeting – 1M API Calls

Description of Services: This Service categorizes content into Contextual Segments for any URL, domain or text provided by You to Oracle via an API integration. You will also be provided: (1) off-the-shelf Contextual Segments pre-defined by Oracle; (2) Contextual Segments based on keyword matches to content selected by You associated with a specific URL, domain or text; and (3) Dynamic Contextual Segments based on a specific URL, domain or text.

Delivery: You will receive access to the Oracle Contextual Intelligence user interface. Contextual Segments will be delivered via API integration to pre-integrated Destinations only. A list of pre-integrated Destinations is available upon request.

Usage Limit(s):

- This Service may only be used for You and Your Client's digital Targeting.

Unused Services: You acknowledge that the pricing for Services under the order is in consideration of the ordered quantities of such Services as well as Your commitment to pay the total net fees (as identified in the table at the top of the order) during the Services Period. You may not reduce the quantity of Services ordered, in whole or in part, during the Services Period. If You have not utilized all of the quantities of the Services under the order prior to the expiration of the Services Period, then You forfeit such remaining unused quantities and agree to pay Oracle the fees associated with such unused quantities. If You terminate the order as a result of Oracle's uncured material breach, then this Unused Services section will not apply.

Overages: If You exceed the quantity of Services ordered, then You promptly must purchase and pay fees for the excess quantity.

Auto-Renewal: If Your order for this service was dated before February 10, 2020, then Your services will not auto-renew; if Your order for this service was dated on or after February 10, 2020, then Your services will auto-renew.

Oracle Cloud Policies: If, as part of this Service, You provide Your Content to Oracle, then the Oracle Cloud Hosting and Delivery Policies and the Oracle Data Cloud Services Pillar Document (which may be viewed at www.oracle.com/corporate/contracts/ under "Oracle Data Services Contracts") are applicable to Your Content.

Privacy Policy: The Oracle Advertising Privacy Policy is not applicable to this Service.

Managed Text Data Services with Custom Targeting – 1M API Calls

Description of Services: This Service categorizes content into Contextual Segments for any URL, domain or text provided by You to Oracle via an API integration. You will also be provided: (1) off-the-shelf Contextual Segments pre-defined by Oracle; and (2) Contextual Segments based on keyword matches to content selected by You associated with a specific URL, domain or text.

Delivery: You will receive access to the Oracle Contextual Intelligence user interface. Contextual Segments will be delivered via API integration to pre-integrated Destinations only. A list of pre-integrated Destinations is available upon request.

Usage Limit(s):

- This Service may only be used for You and Your Client's digital Targeting.

If You terminate the order as a result of Oracle's uncured material breach, then this Unused Services section will not apply.

Overages: If You exceed the quantity of Services ordered, then You promptly must purchase and pay fees for the excess quantity.

Auto-Renewal: If Your order for this service was dated before February 10, 2020, then Your services will not auto-renew; if Your order for this service was dated on or after February 10, 2020, then Your services will auto-renew.

Oracle Cloud Policies: If, as part of this Service, You provide Your Content to Oracle, then the Oracle Cloud Hosting and Delivery Policies and the Oracle Data Cloud Services Pillar Document (which may be viewed at www.oracle.com/corporate/contracts/ under "Oracle Data Services Contracts") are applicable to Your Content.

Privacy Policy: The Oracle Advertising Privacy Policy is not applicable to this Service.

Syndicated Text Data Services – 1M Pageviews

Description of Services: This Service categorizes content from Your URLs, domains or text integrated with an Oracle Tag into Contextual Segments.

Delivery: You will receive access to the Oracle Contextual Intelligence user interface. Contextual Segments will be delivered via API integration to pre-integrated Destinations only. A list of pre-integrated Destinations is available upon request.

Usage Limit(s):

- This Service may only be used for You and Your Client's digital Targeting.

Pre-Requisite(s):

- o Your successful installation of any code or technology provided by Oracle.

Unused Services: You acknowledge that the pricing for Services under the order is in consideration of the ordered quantities of such Services as well as Your commitment to pay the total net fees (as identified in the table at the top of the order) during the Services Period. You may not reduce the quantity of Services ordered, in whole or in part, during the Services Period. If You have not utilized all of the quantities of the Services under the order prior to the expiration of the Services Period, then You forfeit such remaining unused quantities and agree to pay Oracle the fees associated with such unused quantities. If You terminate the order as a result of Oracle's uncured material breach, then this Unused Services section will not apply.

Overages: If You exceed the quantity of Services ordered, then You promptly must purchase and pay fees for the excess quantity.

Auto-Renewal: If Your order for this service was dated before February 10, 2020, then Your services will not auto-renew; if Your order for this service was dated on or after February 10, 2020, then Your services will auto-renew.

Oracle Cloud Policies: If, as part of this Service, You provide Your Content to Oracle, then the Oracle Cloud Hosting and Delivery Policies and the Oracle Data Cloud Services Pillar Document (which may be viewed at www.oracle.com/corporate/contracts/ under "Oracle Data Services Contracts") are applicable to Your Content.

Privacy Policy: The Oracle Advertising Privacy Policy is not applicable to this Service.

Brand Safety Text Data Services – 1M Pageviews

Description of Services: This Service categorizes content from Your URLs, domains or text integrated with an Oracle Tag into Contextual Segments. This Service may be used to exclude digital Targeting based on context.

Delivery: You will receive access to the Oracle Contextual Intelligence user interface. Contextual Segments will be delivered via API integration to pre-integrated Destinations only. A list of pre-integrated Destinations is available upon request.

Usage Limit(s):

- This Service may only be used for You and Your Client's digital Targeting.

Pre-Requisite(s):

- o Your successful installation of any code or technology provided by Oracle.

Unused Services: You acknowledge that the pricing for Services under the order is in consideration of the ordered quantities of such Services as well as Your commitment to pay the total net fees (as identified in the table at the top of the order) during the Services Period. You may not reduce the quantity of Services ordered, in whole or in part, during the Services Period. If You have not utilized all of the quantities of the Services under the order prior to the expiration of the Services Period, then You forfeit such remaining unused quantities and agree to pay Oracle the fees associated with such unused quantities. If You terminate the order as a result of Oracle's uncured material breach, then this Unused Services section will not apply.

Overages: If You exceed the quantity of Services ordered, then You promptly must purchase and pay fees for the excess quantity.

Auto-Renewal: If Your order for this service was dated before February 10, 2020, then Your services will not auto-renew; if Your order for this service was dated on or after February 10, 2020, then Your services will auto-renew.

Oracle Cloud Policies: If, as part of this Service, You provide Your Content to Oracle, then the Oracle Cloud Hosting and Delivery Policies and the Oracle Data Cloud Services Pillar Document (which may be viewed at www.oracle.com/corporate/contracts/ under "Oracle Data Services Contracts") are applicable to Your Content.

Privacy Policy: The Oracle Advertising Privacy Policy is not applicable to this Service.

Pre-bid, Powered by Moat (Display) – 1000 Impressions

Description of Services: This Service provides You or Your Client with Contextual Segments created from Oracle's Moat metrics and services. These Contextual Segments will be based upon scores and values associated with a specific URL or domain for a displayed static-format advertisement and are based on the Media Rating Council definitions (or other mutually agreed upon definitions of display advertisement viewability as stated in your Oracle order).

Delivery: You will receive access to the Oracle Contextual Intelligence user interface. Contextual Segments will be delivered via API integration to pre-integrated Destinations only. A list of pre-integrated Destinations is available upon request.

Usage Limit(s):

- o This Service may only be used for You and Your Client's digital Targeting.
- o This Service may not be used by You and Your Client to create derivative works.

Reporting: Within seven (7) business days following the end of each calendar month throughout the term of this order, You shall provide to Oracle a report which outlines Your usage and, if applicable, Your Client's usage of the Oracle Data which will include information sufficient to enable Oracle to calculate the fees due for such calendar month ("Usage Report").

If You do not provide a Usage Report in accordance with the preceding paragraph, then Oracle will calculate the fees based on either: (a) usage of the Oracle Data by You or Your Client according to Oracle's own records; or (b) the previous months invoice issued to You plus an additional amount equal to 50% of the applicable net fees of aforementioned invoice; however if Oracle has not previously raised an invoice, then Oracle shall calculate the fees based on Oracle's own estimate of the amount of usage of the Oracle Data by You or Your Client.

Auto-Renewal: If Your order for this Service was dated before February 10, 2020, then Your Services will not auto-renew; if Your order for this Service was dated on or after February 10, 2020, then Your Services will auto-renew.

Oracle Cloud Policies: If, as part of this Service, You provide Your Content to Oracle, then the Oracle Cloud Hosting and Delivery Policies and the Oracle Data Services Pillar Document (which may be viewed at www.oracle.com/corporate/contracts/ under "Oracle Data Services Contracts") are applicable to Your Content.

Privacy Policy: The Oracle Advertising Privacy Policy is not applicable to this Service.

Pre-bid, Powered by Moat (Display) – Percent of Gross Advertising Spend

Description of Services: This Service provides You or Your Client with Oracle Contextual Segments created from Oracle's Moat metrics and services. These Contextual Segments will be based upon scores and values associated with a specific URL or domain for a displayed static-format advertisement and are based on the Media Rating Council definitions (or other mutually agreed upon definitions of display advertisement viewability as stated in your Oracle order).

Delivery: You will receive access to the Oracle Contextual Intelligence user interface. Contextual Segments will be delivered via API integration to pre-integrated Destinations only. A list of pre-integrated Destinations is available upon request.

Usage Limit(s):

- o This Service may only be used for You and Your Client's digital Targeting.
- o This Service may not be used by You and Your Client to create derivative works.

Reporting: Within seven (7) business days following the end of each calendar month throughout the term of this order, You shall provide to Oracle a report which outlines Your usage and, if applicable, Your Client's usage of the Oracle Data which will include information sufficient to enable Oracle to calculate the fees due for such calendar month ("Usage Report").

If You do not provide a Usage Report in accordance with the preceding paragraph, then Oracle will calculate the fees based on either: (a) usage of the Oracle Data by You or Your Client according to Oracle's own records; or (b) the previous months invoice issued to You plus an additional amount equal to 50% of the applicable net fees of aforementioned invoice; however if Oracle has not previously raised an invoice, then Oracle shall calculate the fees based on Oracle's own estimate of the amount of usage of the Oracle Data by You or Your Client.

Auto-Renewal: If Your order for this Service was dated before February 10, 2020, then Your Services will not auto-renew; if Your order for this Service was dated on or after February 10, 2020, then Your Services will auto-renew.

Oracle Cloud Policies: If, as part of this Service, You provide Your Content to Oracle, then the Oracle Cloud Hosting and Delivery Policies and the Oracle Data Services Pillar Document (which may be viewed at www.oracle.com/corporate/contracts/ under "Oracle Data Services Contracts") are applicable to Your Content.

Syndicated Targeting – 1000 Impressions

Description of Services: This Service provides off-the-shelf, Contextual Segments pre-defined by Oracle. Upon mutual agreement, URLs, domains or text specifically requested by You or Your Client may be classified by Oracle into its pre-defined Contextual Segments.

Delivery: You will receive access to the Oracle Contextual Intelligence user interface. Contextual Segments will be delivered via API integration to pre-integrated Destinations only. A list of pre-integrated Destinations is available upon request.

Usage Limit(s):

- This Service may only be used for You and Your Client’s digital Targeting.

Reporting: You are required to provide a report within seven (7) calendar days following the end of each calendar month. You shall provide to Oracle a report which outlines Your usage and, if applicable, Your Client’s usage of the Oracle Data which will include information sufficient to enable Oracle to calculate the fees due for such calendar month (“Usage Report”).

You will email Your Usage Report directly to account manager and gs-reports_gb@oracle.com. You shall not send any reporting materials or data to any non-Oracle employee or to any third party, except as otherwise instructed by Oracle. You will be responsible for all fees due for data used up to the date of termination.

Auto-Renewal: Unless otherwise stated in Your order, this Service is subject to auto renewal.

Predicts Targeting – 1000 Impressions

Description of Services: Predicts Targeting provides You or Your Client with Dynamic Contextual Segments based on key word matches that are either off-the-shelf and pre-defined by Oracle or defined for a specific use by You or Your Client for digital Targeting.

Delivery: You will receive access to the Oracle Contextual Intelligence user interface. Contextual Segments will be delivered via API integration to pre-integrated Destinations only. A list of pre-integrated Destinations is available upon request.

Usage Limit(s):

- This Service may only be used for You and Your Client's digital Targeting.
- You may only choose one (1) subject matter to Target against.

Reporting: You are required to provide a report within seven (7) calendar days following the end of each calendar month. You shall provide to Oracle a report which outlines Your usage and, if applicable, Your Client's usage of the Oracle Data which will include information sufficient to enable Oracle to calculate the fees due for such calendar month ("Usage Report").

You will email Your Usage Report directly to account manager and gs-reports_gb@oracle.com. You shall not send any reporting materials or data to any non-Oracle employee or to any third party, except as otherwise instructed by Oracle. You will be responsible for all fees due for data used up to the date of termination.

Auto-Renewal: Unless otherwise stated in Your order, this Service is subject to auto renewal.

Oracle Cloud Policies: If, as part of this Service, You provide Your Content to Oracle, then the Oracle Cloud Hosting and Delivery Policies and the Oracle Data Services Pillar Document (which may be viewed at www.oracle.com/corporate/contracts/ under "Oracle Data Services Contracts") are applicable to Your Content.

Privacy Policy: The Oracle Advertising Privacy Policy is not applicable to this Service.

Predicts Targeting – Percent of Gross Advertising Spend

Description of Services: Predicts Targeting provides You or Your Client with Dynamic Contextual Segments based on key word matches that are either off-the-shelf and pre-defined by Oracle or defined for a specific use by You or Your Client for digital Targeting.

Delivery: You will receive access to the Oracle Contextual Intelligence user interface. Contextual Segments will be delivered via API integration to pre-integrated Destinations only. A list of pre-integrated Destinations is available upon request.

You shall not send any reporting materials or data to any non-Oracle employee or to any third party, except as otherwise instructed by Oracle. You will be responsible for all fees due for data used up to the date of termination.

Auto-Renewal: Unless otherwise stated in Your order, this Service is subject to auto renewal.

Oracle Cloud Policies: If, as part of this Service, You provide Your Content to Oracle, then the Oracle Cloud Hosting and Delivery Policies and the Oracle Data Services Pillar Document (which may be viewed at www.oracle.com/corporate/contracts/ under "Oracle Data Services Contracts") are applicable to Your Content.

Privacy Policy: The Oracle Advertising Privacy Policy is not applicable to this Service.

Syndicated In-Stream Targeting – 1000 Impressions

Description of Services: This Service provides off-the-shelf Contextual Segments pre-defined by Oracle that can be either included in or excluded from digital Targeting. This Service analyzes a transcription of audio or video content provided by You or Your Client and categorizes such video and audio content into Contextual Segments defined for a specific use by You or Your Client.

Delivery: You will receive access to the Oracle Contextual Intelligence user interface. Contextual Segments will be delivered via API integration to pre-integrated Destinations only. A list of pre-integrated Destinations is available upon request.

Usage Limit(s):

- This Service may only be used for You and Your Client's digital Targeting.

Reporting: You are required to provide a report within seven (7) calendar days following the end of each calendar month. Contextual Intelligence Language Targeting – 1M Impressions

Description of Services: This Service provides You or Your Client with language-based indicators that identify the languages You or Your Client would like to Target. The indicators allow You or Your Client to Target only to URLs or domains whose content is in the selected language. A list of current languages is available upon written request to Oracle.

Delivery: You will receive access to the Oracle Contextual Intelligence user interface. Contextual Segments will be delivered via API integration to pre-integrated Destinations only. A list of pre-integrated Destinations is available upon request.

Unused Services: You acknowledge that the pricing for Services under the order is in consideration of the ordered quantities of such Services as well as Your commitment to pay the total net fees (as identified in the table at the top of the order) during the Services Period. You may not reduce the quantity of Services ordered, in whole or in part, during the Services Period. If You have not utilized all of the quantities of the Services under the order prior to the expiration of the Services Period, then You forfeit such remaining unused quantities and agree to pay Oracle the fees associated with such unused quantities. If You terminate the order as a result of Oracle’s uncured material breach, then this Unused Services section will not apply.

Overages: If You exceed the quantity of Services ordered, then You promptly must purchase and pay fees for the excess quantity.

Auto-Renewal: Unless otherwise stated in Your order, this Service is subject to auto renewal.

Oracle Cloud Policies: If, as part of this Service, You provide Your Content to Oracle, then the Oracle Cloud Hosting and Delivery Policies and the Oracle Data Services Pillar Document (which may be viewed at www.oracle.com/corporate/contracts/ under “Oracle Data Services Contracts”) are applicable to Your Content.

Privacy Policy: The Oracle Advertising Privacy Policy is not applicable to this Service.

Contextual Intelligence Predicts Targeting – 1M Impressions

Description of Services: This Service provides You or Your Client with Dynamic Contextual Segments based on term matches that are either off-the-shelf and pre-defined by Oracle or defined for a specific use by You or Your Client for digital Targeting.

Delivery: You will receive access to the Oracle Contextual Intelligence user interface. Contextual Segments will be delivered via API integration to pre-integrated Destinations only. A list of pre-integrated Destinations is available upon request.

Auto-Renewal: Unless otherwise stated in Your order, this Service is subject to auto renewal.

Oracle Cloud Policies: If, as part of this Service, You provide Your Content to Oracle, then the Oracle Cloud Hosting and Delivery Policies and the Oracle Data Services Pillar Document (which may be viewed at <https://www.oracle.com/contracts/> under "Oracle Data Services Contracts") are applicable to Your Content.

Privacy Policy: The Oracle Advertising Privacy Policy is not applicable to this Service.

PRE-BID, POWERED BY MOAT

Pre-bid, Powered by Moat (Display) and Pre-bid, Powered by Moat (Video) allows You or Your Client to use Oracle Contextual Segments created from Oracle's Moat metrics and services for You or Your Client's digital Targeting. You or Your Client will not provide Oracle any data, information, or content as part of the Pre-bid, Powered by Moat services. The foregoing applies to all applicable SKUs listed under "Pre-Bid, Powered by Moat".

Pre-bid, Powered by Moat (Display) – Viewability – 1000 Impressions

Description of Services: This Service provides You or Your Client with Contextual Segments created from Oracle's Moat metrics and services. These Contextual Segments will be based upon scores and values associated with a specific URL or domain for a displayed static-format advertisement and are based on the Media Rating Council definitions (or other mutually agreed upon definition of viewability for display advertisements as stated in your Oracle order).

Delivery: You will receive access to the Oracle Contextual Intelligence user interface. Contextual Segments will be delivered via API integration to pre-integrated Destinations only. A list of pre-integrated Destinations is available upon request.

Usage Limit(s):

- o This Service may only be used for You and Your Client's digital Targeting.
- o This Service may not be used by You and Your Client to create derivative works.

Reporting: You are required to provide a report within seven (7) calendar days following the end of each calendar month. You shall provide to Oracle a report which outlines Your usage and, if applicable, Your Client's usage of the Oracle Data which will include information sufficient to enable Oracle to calculate the fees due for such calendar month ("Usage Report").

You will email Your Usage Report directly to account manager and gs-reports_gb@oracle.com. You shall not send any reporting materials or data to any non-Oracle employee or to any third party, except as otherwise instructed by Oracle. You will be responsible for all fees due for data used up to the date of termination.

Auto-Renewal: Unless otherwise stated in Your order, this Service is subject to auto renewal.

Oracle Cloud Policies: If, as part of this Service, You provide Your Content to Oracle, then the Oracle Cloud Hosting and Delivery Policies and the Oracle Data Services Pillar Document (which may be viewed at www.oracle.com/corporate/contracts/ under "Oracle Data Services Contracts") are applicable to Your Content.

Privacy Policy: The Oracle Advertising Privacy Policy is not applicable to this Service.

Pre-bid, Powered by Moat (Display) – Invalid Traffic – 1000 Impressions

Description of Services: This Service provides You or Your Client with Contextual Segments created from Oracle's Moat metrics and services. These Contextual Segments will be based upon scores and values associated with a specific URL or domain for a displayed static-format advertisement and are based on the Media Rating Council definitions (or other mutually agreed upon definition of invalid traffic for display advertisements as stated in your Oracle order).

Delivery: You will receive access to the Oracle Contextual Intelligence user interface. Contextual Segments will be delivered via API integration to pre-integrated Destinations only. A list of pre-integrated Destinations is available upon request.

Usage Limit(s):

- o This Service may only be used for You and Your Client's digital Targeting.
- o This Service may not be used by You and Your Client to create derivative works.

Reporting: You are required to provide a report within seven (7) calendar days following the end of each calendar month. You shall provide to Oracle a report which outlines Your usage and, if applicable, Your Client's usage of the Oracle Data which will include information sufficient to enable Oracle to calculate the fees due for such calendar month ("Usage Report").

You will email Your Usage Report directly to account manager and gs-reports_gb@oracle.com. You shall not send any reporting materials or data to any non-Oracle employee or to any third party, except as otherwise instructed by Oracle. You will be responsible for all fees due for data used up to the date of termination.

Auto-Renewal: Unless otherwise stated in Your order, this Service is subject to auto renewal.

Oracle Cloud Policies: If, as part of this Service, You provide Your Content to Oracle, then the Oracle Cloud Hosting and Delivery Policies and the Oracle Data Services Pillar Document (which may be viewed at www.oracle.com/corporate/contracts/ under "Oracle Data Services Contracts") are applicable to Your Content.

Privacy Policy: The Oracle Advertising Privacy Policy is not applicable to this Service.

Pre-bid, Powered by Moat (Display) – Page Quality – 1000 Impressions

Description of Services: This Service provides You or Your Client with Contextual Segments created from Oracle's Moat metrics and services. These Contextual Segments will be based upon scores and values associated with a specific URL or domain for a displayed static-format advertisement and are based on the Media Rating Council definitions (or other mutually agreed upon definition of page quality for display advertisements as stated in your Oracle order).

Delivery: You will receive access to the Oracle Contextual Intelligence user interface. Contextual Segments will be delivered via API integration to pre-integrated Destinations only. A list of pre-integrated Destinations is available upon request.
