

ORACLE FINANCIAL SERVICES SOFTWARE LIMITED

List of approved Corporate Social Responsibility (CSR) Projects for the Financial Year 2023-24

SL. NO.	ORGANISATION	PROJECT DESCRIPTION
1.	Bal Raksha Bharat (Save the Children)	Support delivery of safe and clean drinking water, construction and maintenance of toilets, infrastructure repair and renovations, training and education for students, teachers, and school management committees to promote best hygiene practices.
2.	Bhumi	Support underserved schools by strengthening WASH systems and infrastructure to improve student outcomes, reduce absenteeism, dropout rates and the spread of communicable diseases.
3.	Breakthrough Trust	Empowering underserved young girls through socio-emotional and leadership development, as well as community engagement. Provide teachers' training on how to promote gender equitable behaviour in the classroom and support schools in implementing gender sensitization curriculum in schools.
4.	CRY - Child Rights and You	Empowering marginalized girls through primary education support, life-skills training and leadership development. Support will also provide access to digital technology, workbooks and age-appropriate content in the classroom.
5.	Foundation to Educate Girls Globally	Improving enrolment, retention and learning outcomes among at-risk out-of-school girls in marginalized communities. Provide life skills training for adolescent girls and support in-school remedial learning curriculum.
6.	Friends Union for Energising Lives (FUEL)	Providing post-graduation scholarship support to young women from low-income families pursuing higher education in technology and provide employment support.
7.	Going to School Fund	Equipping young people with STEM and life skills through engaging sessions focused play, problem solving and design thinking.

SL. NO.	ORGANISATION	PROJECT DESCRIPTION
8.	Indian Institute of Technology Bombay	Provide scholarship support to young women pursuing higher education in Science and Technology with special attention to low-income students.
9.	Magic Bus India Foundation	Provide academic support through learning centers making each individual child learn basic numeracy and literacy as per their academic level. Support will allow young girls to derive joy in learning, address learning gaps, and develop good study habits.
10.	MAMTA Health Institute for Mother & Child (HIMC)	Support students at underserved schools to gain the knowledge and skills they need to live safe and healthy lives. Driving knowledge and skills around WASH best practices and strengthening WASH infrastructure and training at schools.
11.	Peoples Action for National Integration (PANI)	Provide access to clean drinking water, sanitation and hygiene resources to marginalized communities, with a focus on women and adolescent girls while installing solar energy run water tanks, community washrooms, and awareness building secessions on solid waste management in the community.
12.	Samarthanam Trust for the Disabled	Empowering underserved students by strengthening sanitation and hygiene practices in schools and communities and ensure post-project upkeep and maintenance through engagement with school management committees.
13.	Sambhav Foundation	Improve sanitation practices and infrastructure in Government schools, facilitate healthy and hygienic behaviour in students, promote water, sanitation and hygiene education and awareness among students, and ultimately leading to improved learning outcomes and retention of students.
14.	Sewa International	Provide counselling to adolescent girls on hygiene, preventive healthcare, and promotion of sanitation and best hygiene practices through installation of water purifiers and implementation of behaviour change and educational programs in schools.
15.	Society for All Round Development	Providing infrastructure support by construction and repair of facilities like water tanks, toilets, and handwashing stations in Government schools,

SL. NO.	ORGANISATION	PROJECT DESCRIPTION
		construction of rainwater harvesting structures, and awareness building sessions to underserved schools and to promote WASH best practices.
16.	Swades Foundation	Empower underserved communities by providing access to safe drinking water in every home through implementation of Government water schemes to provide drinking water via tap in underserved households, and capacity building workshops for community members and village panchayats.
17.	Teach to Lead	Support fellowship program to strengthen learning outcomes for girls by teacher training, curriculum development, and placement of Fellows in Government schools for girls to help improve educational outcomes among underserved girls.
