

Oracle SaaS Support Services

Whether you are a small company or a global enterprise, Oracle Support is your **trusted partner** with more than **40 years of experience** helping customers succeed. We understand SaaS and all the complexities that you face in that environment. Oracle's platinum-level of support is with you throughout your entire journey using data to drive the right insight and action, along with the tools to help you maximize effectiveness. Our technical, product, and domain expertise will advise, guide, and support you in taking the right steps to **reach your goals**.

SUPPORT THROUGHOUT YOUR JOURNEY

Oracle SaaS Support Services provides everything you need across IT and business to have seamless adoption of Oracle SaaS products and reach business value faster. Platinum-level support offers access to more channels than ever before for issue resolution, whether you choose to submit a case online, call a Support Engineer, or connect with an expert via live chat. We are also committed to faster issue resolution by defining response SLOs, and our promise of a 15-minute response time for severity one issues is the fastest amongst our competition.

Successful implementations are critical to your success. Platinum-level support gives you access to dedicated implementation resources that provide support through your implementation process until go-live. With these services and more, you'll experience better outcomes, better productivity, and a better experience with Oracle SaaS Support.
