

Oracle Database App Developer

Newsletter – August 2023

What's New

[23c Feature a Week](#)

Learn about this week's feature: **Blockchain Tables.**

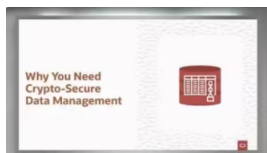

Loads of information through videos, blogs, and existing documentation to know more about this feature.

Bookmark this page to learn a feature every week.

[Oracle DB Error Help Portal](#)

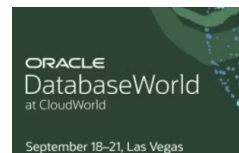

Introducing the new Error Help Portal for Oracle Database, which will help users gain faster and improved insights into Oracle Database errors.

You can easily access the new portal via <https://docs.oracle.com/error-help/db/>.

[5 Low Code demos to see at OCW 2023](#)

At Oracle CloudWorld this year, we're demonstrating that low code isn't just for developers without a traditional programming background. It's for seasoned DevOps professionals as well.

[ORAdiff is live!](#)

Did you ever wanted to find out the differences between two Oracle database releases? The wait is over!

ORAdiff is live – compare two Oracle Database and Patch releases.

From the Desk of the Editor

Here is the August edition of the App Dev newsletter. This is our chance to highlight the latest stories to keep you updated on-the-go. We love to have your feedback and what else you want to be included in this newsletter. You can always email us with feedback, suggestions, comments, and corrections at bill.sawyer@oracle.com and priya.p.sharma@oracle.com.
