Project Integration Framework
Integrating Oracle Primavera P6 and SAP

How Oracle's Project Integration Framework enables the free flow of data between Primavera P6 and SAP.

Oracle's Project Integration Framework enables and streamlines integrations, not only between Oracle solutions but also with a growing list of third-party tools. It empowers you to embrace an integrated footprint by delivering faster time to integration, increased productivity, and lower total cost of ownership.

Project Integration Framework is a lightweight platform that makes integration development simple, allowing you to configure integrations without code through an easy-to-use, highly intuitive interface.

Integrations between Oracle Primavera P6 and SAP

Are you looking to maintain data consistency between projects and work orders in SAP and Primavera P6? Project Integration Framework–enabled two-way integrations between Primavera P6, SAP Project System (PS), and SAP Plant Maintenance (PM) are prebuilt and available out of the box (OOTB).

These OOTB integrations can be easily turned on for your use, delivering faster time to integration, increased productivity, and a lower total cost of ownership.

As Project Integration Framework is based on configuration, not coding, any modifications you need to make to the OOTB integrations can be configured using forms with drop-down fields through the platform's intuitive user interface.

Three OOTB integration flavors
1. Primavera P6 and SAP Project System

2. Primavera P6 and SAP Plant Maintenance

3. Primavera P6 and SAP PS and PM

Project Integration Framework lowers the cost of building, deploying, and maintaining integrations. To find out more about our Project Integration Framework and how it can help your organization, please connect with us.

How are we different?

Our professional services team is focused exclusively on Oracle technologies. We have the experts that others turn to for leading practices. We know how to best optimize your investment in our products and provide your business with tightly integrated, comprehensive, superior services throughout your ownership experience.

Solutions made easy

Oracle offers a variety of flexible professional services, including comprehensive implementation programs, onsite consulting, software installation, workshops, manuals, reports, coaching, and educational programs.

How can we help you succeed?

We provide specialized knowledge, expertise, and technical skills, enabling you and your team to get the most from our platform and applications.

Our team is ready and waiting to discuss the services we can provide and how we can support your success.
