

Oracle Database Insider

All you want to know about Oracle Database

What's New

Latest Autonomous Data Warehouse Innovations

Important new capabilities being introduced into Autonomous Database that we think will make the service even easier to use and more open.

Announcing Oracle Spatial Studio 23.1

Oracle Spatial Studio is a self-service, no-code mapping tool that allows you to visualize, explore, and analyze geospatial data stored in and managed by Oracle.

Announcing Oracle Transaction Manager for Microservices 22.3.2

This release addresses customer requests to resolve consistency issues in microservices based applications, especially apps with strong data consistency requirements.

Oracle Database 23c Free – Learn a Feature a Week

Bookmark this page to learn about Oracle Database 23c Free – Developer Release, a feature a week. Each week, a new feature will be highlighted with examples to get you up and running quickly.

From the Desk of the Editor

In this edition, we continue our focus on Oracle Database 23c Free – Developer Release and hope the coverage is satisfactory. However, share your thoughts on what you would like to see or read. We continue to appreciate your feedback. My name is Suresh Rajan, and I am Assistant Editor, working with Bill Sawyer, the Managing Editor. You can email us at suresh.r.rajana@oracle.com or bill.sawyer@oracle.com.
