

## ORACLE CONSULTING CLOUD SERVICES

TAKE ON CLOUD COMPUTING WITH A STRATEGY, PLAN, AND ROADMAP THAT WORKS BEST FOR YOUR BUSINESS NEEDS

### KEY FEATURES

- Identifies cloud opportunities for your business and where to start
- Provides a comprehensive strategy and recommendations for integrating cloud computing
- Delivers best-practices and resources to ensure a low risk, smooth deployment of cloud into your business

### KEY BENEFITS

- Reduce risk and get cloud right the first time by utilizing best practices and knowledge to take the Oracle stack into a cloud environment
- Develop a cloud plan that best meets your business's unique needs and requirements.

*Many organizations are looking at how their business can best benefit from a cloud strategy, or have started down that path leveraging technologies like virtualization – but results have not yet matched up to expectations. Oracle Consulting can help you take the hype out of cloud computing and provide clarity on how to make it work for you.*

*Oracle Consulting takes a lifecycle approach to our Cloud Services portfolio, providing guidance and expertise through each phase of your transition to a cloud environment. Whether your organization is just beginning to consider its options for cloud, or you are already operating in a cloud environment and want to continue to expand its value, Oracle experts can provide a pragmatic roadmap aligned with your business strategy, getting you there faster and with less cost or risk.*

### Benefit from Oracle Consulting Cloud Services

Oracle Consulting Cloud Services can help you choose the right cloud solution and safely transform your existing environment while staying focused on your critical business. Oracle experts provide the skills and knowledge to plan, architect, implement, and project manage a solution based on your unique environment. The goal is to help you achieve a successful, long-term cloud strategy and deployment that protects your legacy application investments, improves IT efficiency and service delivery, and allows you to adapt to evolving corporate standards, strategies, and regulations.

### Why Turn to Oracle for Cloud Computing?

Oracle offers the most complete, open, and integrated business software and hardware systems that are engineered and tuned to work together at every level of the technology stack for unmatched performance, availability, security, and manageability.

<b>Oracle Consulting Cloud Migration Service</b>	
	How do you get applications and data on the cloud?
	How do you manage risk?

**Oracle Consulting Cloud Strategy Assessment**

At Oracle we understand the cloud is first and foremost a business decision. Led by an Oracle Enterprise Architect, the Oracle Cloud Strategy Assessment is a formal and scoped series of business and IT engagements. Focused on identifying and linking your business objectives and long term goals to cloud computing solutions, this service creates the vision for how to transform your business and gain greater value from your people, processes, and technology..

**Key Activities:**

- Identify opportunities for cloud and where to start
- Deliver a clear and concise picture of cloud computing and how it may benefit your business goals
- High-level strategy and recommendations for approaching cloud computing

**Oracle Consulting Cloud Readiness Advisory**

The Cloud Readiness Assessment takes an in-depth look at your existing business, service management, applications, and technology capabilities to identify the overall readiness of your business to move to a cloud computing architecture. Focusing on both the business and technical readiness of your environment, the goal of the assessment is to create a clear picture of how to approach cloud computing, provide a strategy plan, and determine the level of effort required to get you there from your current state.

**Key Activities:**

- Assessment of business and technology readiness
- High-level portfolio discovery
- Capability and gap analysis
- Roadmap development
- Business case development

### WHY ORACLE CONSULTING

- **Leading Expertise:** Oracle's own experts providing thought leadership for every Oracle solution.
- **Broad Coverage:** "End-to-end" lifecycle services across the entire Oracle product footprint.
- **Global Scale:** 13,000 Oracle experts in 145 countries, serving over 20 million users.
- **Unified Methodology:** Based on industry standards, high quality results across complex projects.
- **Flexible Delivery:** Onsite, offsite, and offshore, along with innovative solutions such as Expert Services and Architecture Services.

### Oracle Consulting Cloud Architecture Service

Irrespective of whether your objective is to provision Infrastructure, Platform or Software services in a Private, Public or Hybrid cloud environment, the Cloud Architecture Advisory Service provides end-to-end architecture, planning, and governance guidance for transforming your IT environment into an enterprise cloud service. In addition, Oracle experts will provide advice and guidance for implementing sustainable IT governance and service management. Using a phased approach, you will be able to benefit from cloud computing quickly with minimal risks and overhead.

#### Key Activities:

- In-depth portfolio inventory
- Portfolio rationalization
- Cloud architecture and roadmap
- Implementation and migration planning
- Governance model
- Business case development

### Oracle Consulting Cloud Implementation Services

Oracle Cloud Implementation Services actualize the future state cloud environment using the architecture, planning, and governance from the Architecture Advisory Service. Oracle's expert implementation architects and engineers will build-out and integrate a complete cloud solution, accelerating the deployment of many cloud specific characteristics, including; On-Demand Self-Service computing; Resource pooling and Rapid elasticity.

Our Cloud Implementation Services, based on the Oracle Consulting Cloud Services Framework will enable your operations staff through professional documentation, training, and skills transfer so that you can quickly take control.

#### Key Activities:

- Professional installation and configuration of cloud infrastructure
- Detailed configuration, implementation, and operations documentation
- Burn-in, testing, and certification of cloud infrastructure

### Oracle Consulting Cloud Migration Service

The Cloud Migration Service reduces risk and complexity of migrating to the cloud by leveraging the planning and governance of our Architecture Advisory Service and migration expertise, including the Oracle Migration Factory Service. Using a proven factory migration process and methodology, Oracle's migration experts will safely migrate your applications and data into your new Oracle cloud solution. Oracle migration engineers can perform migrations to a variety of systems including Oracle Solaris on SPARC systems, Oracle Solaris and Linux on x86 systems, or any variation as defined by your cloud architecture requirements.

#### Key Activities:

- Comprehensive analysis of all migration components
- Use of efficient tools and an end-to-end factory approach to accelerate time-to-benefit and reduce risk

### How We Are Different

The Oracle Consulting team is focused exclusively on Oracle Technologies, and we have the experts that others turn to for leading practices in Oracle hardware and software implementations. We know how to best optimize your investment in Oracle products and can provide your business with tightly integrated, comprehensive, superior services throughout your ownership experience.

### Getting Started

Leverage Oracle's methods, tools, and extensive experience with customer implementations across diverse industries and geographies. Tight integration across Consulting, Development, Support, Education, and Global Delivery puts the entire Oracle team behind your success.
