

SUITECLOUD TECHNOLOGIES TERMS OF USE

SuiteCloud Technologies Terms of Use

Customer may be presented with and asked to accept the SuiteCloud Terms of Service within the Cloud Service. Oracle hereby expressly agrees that these SuiteCloud Technologies Terms of Use shall supersede and apply in place of the SuiteCloud Terms of Service and that such SuiteCloud Terms of Service shall be null and void.

For purposes of these SuiteCloud Terms of Use, the following Definitions apply:

- **“SuiteApp”** means a collection of customizations, data, configurations, or modifications of standard objects created using the SuiteCloud Technologies for use in the Cloud Service. For the avoidance of doubt, a bundle is one type of SuiteApp. For clarity, SuiteApps developed by Customer and any other customer are considered Third Party Applications under this Agreement, including without limitation SuiteApps available on SuiteApp.com or the SuiteApp marketplace. Customer developed SuiteApps are considered Third Party Applications under the Agreement. Customer is solely responsible for controlling access to (including accessible attributes) Customer’s developed SuiteApps.
- **“SuiteCloud Technologies”** means the technologies made available to Customer by Oracle that can be used to customize, automate, import, export, or integrate data or functionality into or with the Cloud Service including, but not limited to, any (i) application programming interfaces, (ii) extensions, (iii) libraries, (iv) tools, (v) interfaces which enable plug-ins, (vi) sample code, and (vii) documentation. SuiteCloud Technologies include, but are not limited to, SuiteBuilder, SuiteFlow, SuiteScript, SuiteScript Debugger, SuiteTalk, SuiteCloud Development Framework, and SuiteGL. To the extent that Oracle includes open source software in or with SuiteCloud Technologies, the open source licenses governing such open source software will apply to Customer’s access and use of such open source software. For the avoidance of doubt, the Cloud Services under Customer’s Estimate/Order Form includes SuiteCloud Technologies.

In addition to the license grants provided under the Agreement, Customer shall also have the non-exclusive, worldwide, limited right to use the SuiteCloud Technologies to create, store, and use SuiteApps in connection with Customer’s use of the Cloud Service and in accordance with the Agreement and to share such Customer developed SuiteApps with other customers of the Cloud Service. SuiteCloud Technologies are considered Oracle intellectual property and all rights, title and interest to the SuiteCloud Technologies are owned exclusively by Oracle and its licensors.
