1. Qualitative Information on Results in the Quarter under Review

- (1) Qualitative Information on Business Outcomes
- (i) Overview

During the second quarter under review (from June 1, 2012 to November 30, 2012, hereinafter "this quarter"), the Company posted revenue of 74,319 million yen (up 11.6% year on year), operating income of 20,902 million yen (increasing 15.0%), ordinary income of 20,948 million yen (rising 15.1%), and net income of 12,874 million yen (up 19.9%). Each of these figures represents new record highs for a second quarter.

Although performance was weak in certain sectors in the Japanese economy, IT investment has increased gradually reflecting recovering corporate activities backed by reconstruction demand after the earthquake.

Oracle Corporation organized Oracle OpenWorld, an IT conference, in San Francisco in October 2012 and announced a range of new products and services. The Company prepared to provide those new products and services for customers in Japan.

(ii) Results by Reported Segment

[Software License]

Revenue in the Software License Segment was 21,187 million yen, up 23.7% from the corresponding period of the previous fiscal year.

In this segment, the Company provides software that is used in IT infrastructure at companies and other organizations through the sale of new licenses and services in the cloud computing environment. The segment consists of the Database & Middleware division, which sells database management software and a range of middleware that enable reliable and scalable IT infrastructure, and the Applications division, which sells ERP and other business applications.

Revenue in the Database & Middleware division was 18,354 million yen (rising 19.8 % year on year). Increasing numbers of customers were using database management software and middleware of the Company as products necessary for developing IT infrastructure and environments for cloud computing and/or Big Data

as products necessary for developing IT infrastructure and environments for cloud computing and/or Big Data that support their business activities. Sales of Engineered Systems, including "Oracle Exadata", which provide software and hardware together, were strong, and sales of licenses that are used with Engineered Systems increased.

In September 2012, the Company launched "Oracle GoldenGate 11g Release 2", the latest version of real-time data integration solution, and "Oracle Endeca Information Discovery", a new product for big data analysis. This was followed in October with the release of the latest version of software for "Oracle Exalytics In-Memory Machine", a machine specifically designed for fast analysis, and in November with the launch of "Oracle Tuxedo 12c", a new version of "Oracle Tuxedo", which is a platform to manage distributed transaction processing for C, C++, and COBOL applications. The Company also began providing "Oracle Exalogic Elastic Cloud Software 2.0" and "Oracle Business Process Management Standard Edition" in July and "Oracle Application Testing Suite 12.1" in June.

Revenue in the Applications division stood at 2,833 million yen (up 57.0% year on year).

Products that improve "customer experience", the set of perceptions a customer has with a company throughout the buying and owning interactions, and CRM products, ERP products, including products for financial accounting, and HCM products for personnel administration sold well.

In October 2012, the Company launched "Oracle Health Sciences Translational Research Center", which are products that support "translational medicine", applying the results in laboratories to clinical practice, and it released "Oracle ATG Web Commerce 10.1" and "Oracle Endeca Commerce 3.1", which are cutting-edge products for helping companies build e-commerce websites.

[Updates & Product Support]

Revenue in the Updates & Product Support Segment was 33,889 million yen, increasing 5.0% from the corresponding period of the previous fiscal year.

This segment updates software for customers using the Company's software licenses and provides technical support.

The Company continued to highlight the quality of support offerings through "My Oracle Support", which provides personalized, proactive and preventative support experience. Meanwhile, it stepped up collaboration with partners and took steps to increase support attach rate to new products and maintain and boost the support contract renewal rate.

[Hardware Systems]

Revenue in the Hardware Systems Segment was 11,082 million yen, up 12.2% from the corresponding period of the previous fiscal year.

This segment consists of the Hardware Systems Product division, which sells servers, storage products, and hardware for Engineered Systems, and provides operating systems and related software, and the Hardware Systems Support division, which provides technical support for hardware products, the maintenance and repair of hardware, and updated versions of software, including operating systems.

Revenue in the Hardware Systems Product division stood at 6,098 million yen (rising 17.9% year on year). Sales of Engineered Systems, including Oracle Exadata, were strong.

In June 2012, the Company launched "Sun ZFS Backup Appliance". This was followed in August by the introduction of "StorageTek SL150 Modular Tape Library", and in October by the launch of "Oracle Exadata X3-2 Database In-Memory Machine", the latest version of "Oracle Exadata". Later, in November 2012, the Company launched "Oracle Exalogic Elastic Cloud X3-2", the latest version of "Oracle Exalogic Elastic Cloud", an engineered system designed to consolidate a number of Java and non-Java applications and run them at ultra high speed in a cloud environment. Meanwhile, the Company emphasized collaboration with its sales partners. NEC Corporation and Fujitsu Limited have begun providing first-line technical support services and SI support services for Oracle Exadata since August and September, 2012, respectively.

Revenue in the Hardware Systems Support division was 4,984 million yen (up 5.8% year on year).

Hardware system support performed well, reflecting an improvement in support attach rate to newly sold hardware products and conclusions of renewal contracts with existing customers. ITOCHU Techno-Solutions Corporation has been providing a comprehensive maintenance service for the Oracle Database Appliance since November 2012.

[Services]

Revenue in the Services Segment was 8,160 million yen, increasing 12.0% from the corresponding period of the previous fiscal year.

This segment consists of Cloud Services, which provides high-value added services, including a preventive maintenance service and managed cloud services; Education Services, which provide training for engineers and users, and also encompasses a technology qualification business; and Consulting Services, which support the introduction of products of the Company.

In Cloud Services, "Advanced Customer Support Services", which provide preventive maintenance services performed well especially service for Oracle Exadata. In Consulting Services, the performance of consulting services for Database & Middleware and Applications were solid.

As a result, revenue in Cloud Services, Education Services, and Consulting Services were 2,155 million yen (up 9.0% year on year), 828 million yen (down 1.7%), and 5,176 million yen (rising 15.8%), respectively.
