## Review Star Breakdown

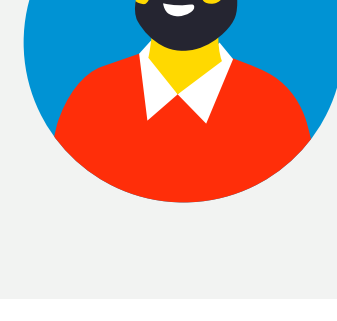

of users rate Oracle VirtualBox **4.0 or 5.0 stars**

## Satisfaction Score

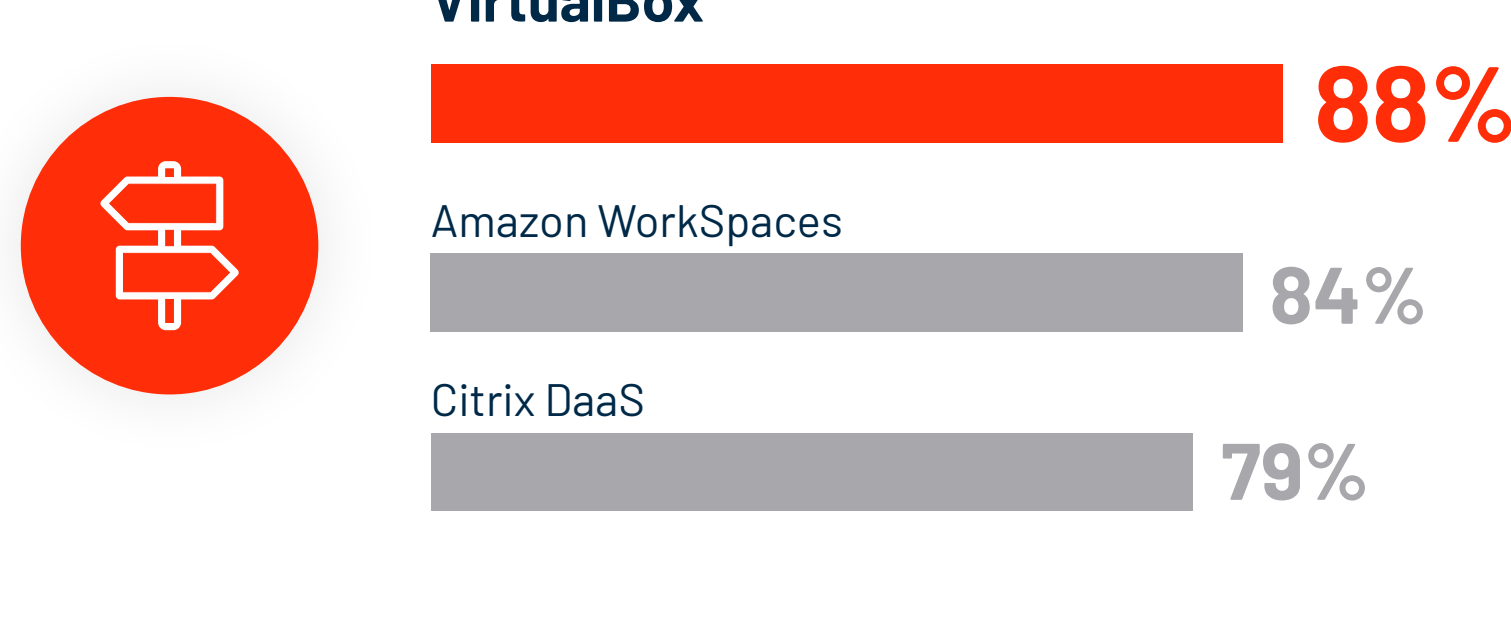

**VirtualBox is one of the best solutions for virtualized environments.** It is an open source software and a powerful tool to test the deployment of any new operating system and applications. In addition, it works on virtually all operating systems...

- G2 Reviewer, 4.5 stars

## Product Direction

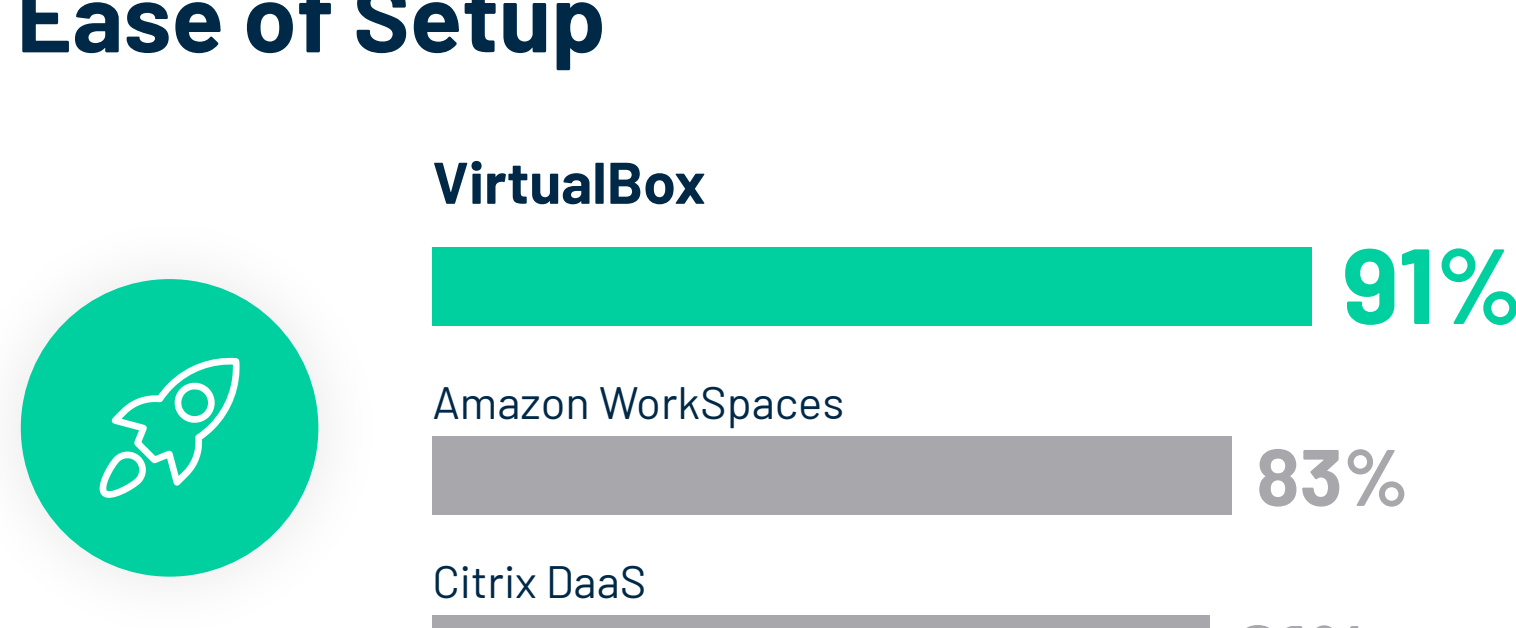

**As its name, Virtual Box, Virtualizes almost all operating systems.** It has a great feature of switching mouse and keyboard between the main OS and the virtual OS. Unlike other Virtual machines which cost very high, Virtual Box is free to download.

- G2 Reviewer, 4.5 stars

## Ease of Setup

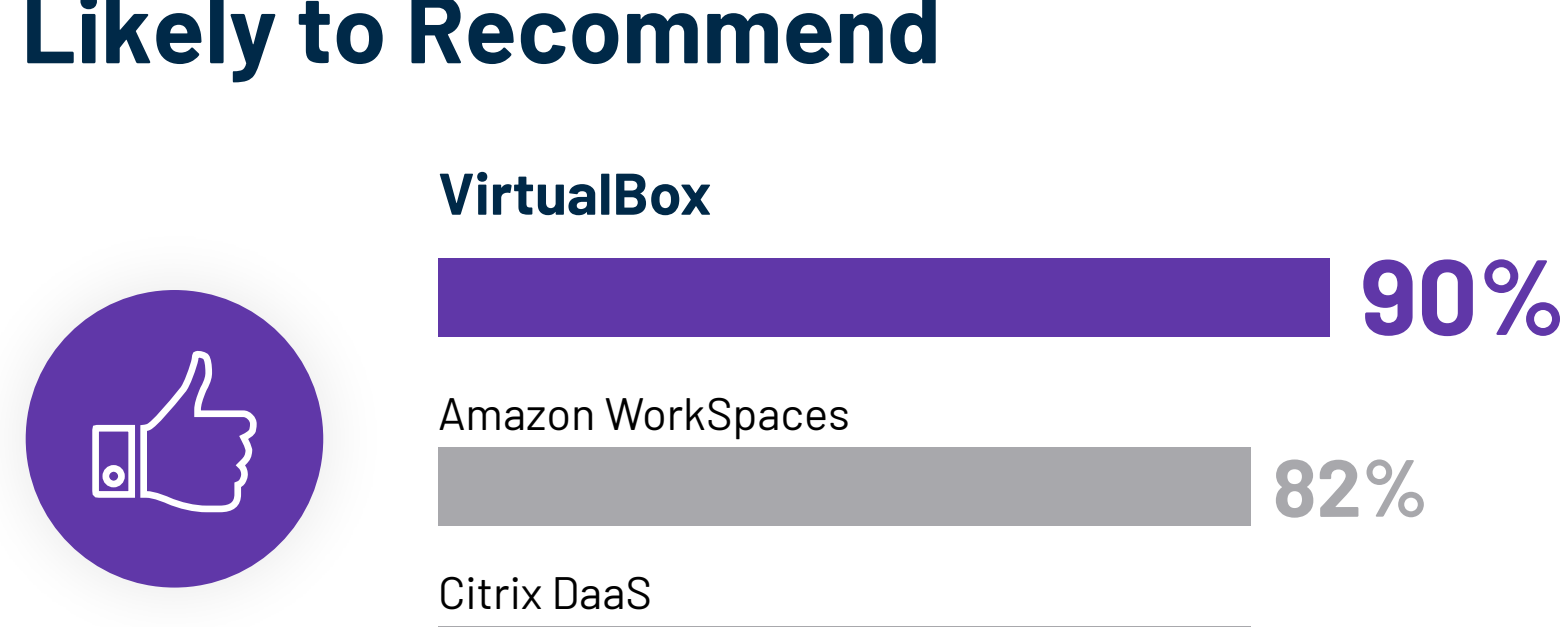

**What I like the most about Virtual Box is being able to create several virtual machines with different operating systems within my host computer.** It is very easy to use and it is also free.

- G2 Reviewer, 5.0 stars

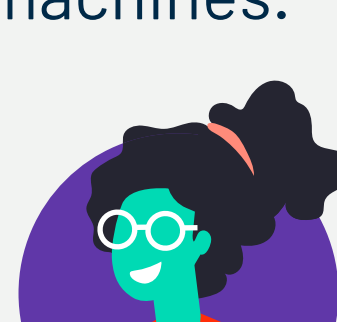

## Likely to Recommend

**I would definitely recommend this VirtualBox software to those who are looking for an amazing virtualization software to set up and use multiple OS on a single host by setting up virtual machines.**
