MySQL™
HeatWave

Top 5 Reasons to Attend the MySQL and HeatWave Summit

May 1, 2024. Redwood Shores, California.

Register now

1
Free, In-Person Event
Join us for a free full day event of learning and networking. Breakfast, coffee, and lunch is included. Place is limited so register now.

2
Learn about Generative AI and Machine Learning
Discover the latest MySQL and HeatWave capabilities for Generative AI and Machine Learning, as well as Lakehouse, Analytics, OLAP, and OLTP.

3
Get One-on-One Help and Feature Demos
Bring your questions to the technical experts at the MySQL and HeatWave Dolphin Pod. Ask for a personalized demo of any feature or capability that you would like to explore.

4
Hear from Leading Companies
Learn from customer success stories by NVIDIA, Meta, LY Corp, CERN, Panasonic Avionics, and more.

5
Network with the MySQL Community
Meet with the MySQL community, customers, partners, the MySQL and HeatWave engineering and product management teams.

Don't delay! Take advantage of these unique opportunities by registering now.
