An intelligent restaurant system for use anywhere food is prepared

Asseco BlueGastro is a practical, flexible, and modern software solution suitable for any type of restaurant. It automates all processes within a restaurant to increase employee efficiency and guest satisfaction.

Company Overview

With offices in Germany, Austria, Italy, the Czech Republic and Slovakia, Asseco Solutions provides both enterprise resource planning (ERP) solutions and industry-specific solutions for hotels, restaurants, and cafés (HORECA). In the Czech Republic and Slovakia, it is the largest software company providing ERP systems for businesses. In Slovakia, it is the leading provider of HORECA software solutions with more than 25 years on the market. Asseco maintains a dialogue with its customers and therefore is able to respond to customer requests and market requirements, bringing innovation to its products.

Integration Overview

The integration between Asseco BlueGastro and Oracle Hospitality OPERA property management system (PMS) connects the two applications, extending the functional possibilities of each interface. For example, hoteliers can use the BlueGastro interface to search for a guest registered in the PMS via name or room number. The charged items are split as per accounting types.

Integration Details

The integration enables the following:

- Send inquiries to Oracle Hospitality OPERA PMS to check room occupancy. Inquiries can be done by either room number or guest name.
- Send room postings only to Oracle Hospitality OPERA PMS.
- Handle NoPost flags and CreditLimit messages received from Oracle Hospitality OPERA PMS.
- Support for the credit limit override function, enabling a point-of-sale manager to override any credit limit set on Oracle Hospitality OPERA PMS.
- Handle individual postings for each occupant in the room.
- Handle posting of covers.
- Void a previous posting.

The Oracle logo, consisting of the word "ORACLE" in a white, sans-serif font, centered within a red rectangular background.

Validated Integration

Oracle Hospitality

Oracle Validated Integration provides customers with confidence that a partner's integration with an Oracle on-premises application is functionally sound and performs as designed. This can help customers reduce deployment risk, lower total cost of ownership, and improve the user experience related to the partner's integrated offering.
