Company Overview

Founded in 2001, Availpro is a leading provider of distribution solutions that enable hotels to increase their occupancy and revenue while saving time through automation. Availpro provides innovative tools to help hotels manage online distribution, facilitate decision-making, optimize prices, and track their reputation on the web.

With more than 7000 hotels using its solutions, Availpro is well established in Europe, with local teams in all major cities. Recently acquired by AccorHotels group, the new ownership ensures the quality of Availpro technology and the solutions it provides for distribution partners.

Integration Overview

The integration between Availpro Smart Channel Manager and Oracle Hospitality OPERA enables the following:

- Reservation push (new, update, cancel) from Availpro to Oracle Hospitality OPERA
- ErrorNotifRQ push from Availpro to Oracle Hospitality OPERA
- Rate updates, restriction updates from Oracle Hospitality OPERA to Availpro
- Inventory updates from Oracle Hospitality OPERA to Availpro

Integration Details

The interface between Oracle Hospitality OPERA and Availpro updates dynamic data including rate amounts, restrictions, and inventory. No static data can be exchanged via the XML interface.

ORACLE

Validated Integration

Oracle Hospitality

Oracle Validated Integration provides customers with confidence that a partner's integration with an Oracle on-premises application is functionally sound and performs as designed. This can help customers reduce deployment risk, lower total cost of ownership, and improve the user experience related to the partner's integrated offering.
