A room management system (RMS) integrated with Oracle Hospitality OPERA

ImGATE is an integrated, mobile door lock system that helps make your hotel smart. Using the ImGATE solution, hotels can provide guests with both a key card and a mobile key at the same time, increasing convenience and building loyalty.

Company Overview

CHAHOO Limited develops IoT and mobile solutions using smart devices based on new technologies. The company actively responds to market changes with technological development based on leading technology. For the hospitality industry, ImGATE provides a mobile door lock product that enables guests to use either a mobile key or a near-field communication (NFC) card to access hotel rooms.

Integration Overview

The integration between the ImGATE door locking system and Oracle Hospitality OPERA property management system (PMS) provides a streamlined way for front desk staff to generate and manage key cards. All action can be tracked via TCP/IP communication.

Integration Details

The integration supports the following functionality:

- Key request—for either new or duplicate keys—with key options and Track 2 support
- Key delete
- Key answer

The Oracle logo, consisting of the word 'ORACLE' in white, uppercase letters on a red rectangular background.

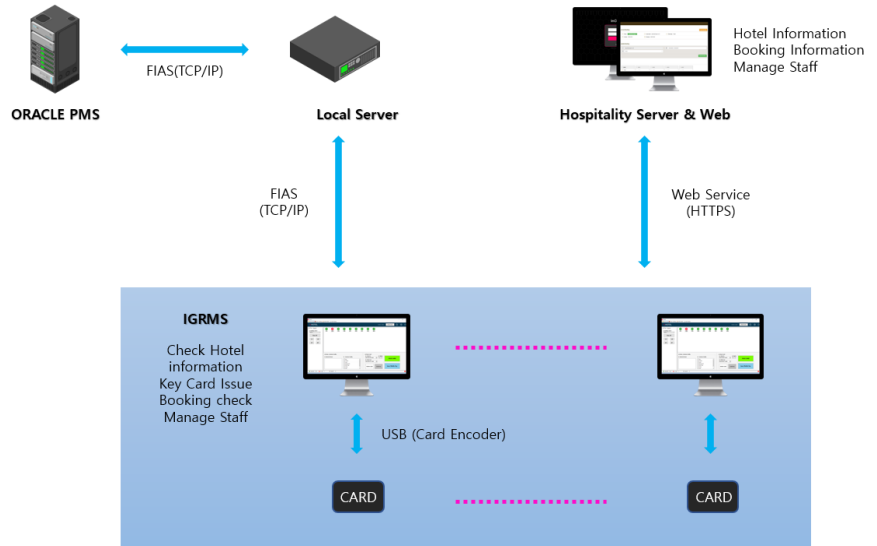

Validated Integration

Oracle Hospitality

Oracle Validated Integration provides customers with confidence that a partner's integration with an Oracle on-premises application is functionally sound and performs as designed. This can help customers reduce deployment risk, lower total cost of ownership, and improve the user experience related to the partner's integrated offering.
