HRS

TNG Validated Integration with Oracle Hospitality OPERA 5.5

hrsinternational.com/eng
hrs@hrsinternational.com

Oracle Validated Integration provides customers with confidence that a partner's integration with an Oracle on-premises application is functionally sound and performs as designed. This can help customers reduce deployment risk, lower total cost of ownership, and improve the user experience related to the partner's integrated offering.

Connect your TNG Spa and Guest Activities Management system with Oracle Hospitality OPERA.

TNG is a Spa and Guest Activities Management solution developed by HRS which assists hoteliers to streamline operations, boost sales, increase revenue and guest loyalty. HTNG interface between TNG and Oracle Hospitality OPERA enables advanced integration between the systems.

Company Overview

Established in 1990, HRS - Hospitality & Retail Systems - is the market leader in information technology for the hospitality industry in Central and Eastern Europe, the Baltics, Russia, the Commonwealth of Independent States, Georgia and Mongolia.

HRS provides its customers with premier professional services, including strategic business consulting, project analysis, hardware and software supply, systems localization, implementation and integration, software development, round-the-clock technical support and maintenance.

Integration Overview

HRS uses Oracle Hospitality HTNG interface for seamless, two-way information exchange between Oracle Hospitality OPERA 5.5 and TNG. Oracle Hospitality HTNG is the next-generation interface specification which allows maximum functionality and reliability for integrations.

The integration enables the following functionality:

- Financial transaction posting from TNG to Oracle Hospitality OPERA
- Guest profile two-way exchange between TNG and Oracle Hospitality OPERA
- Reservation details from Oracle Hospitality OPERA to TNG

Integration Details

The interface provides the following features:

- Profile lookup from TNG to Oracle Hospitality OPERA
- Profile creation and updates in both directions
- Activity lookup from Oracle Hospitality OPERA to TNG via a TNG web application
- Create, update or cancel activity from TNG to Oracle Hospitality OPERA
- Post payment from TNG to Oracle Hospitality OPERA
- Reservation status notification from Oracle Hospitality OPERA
