Company Overview

iKentoo SA is a cloud POS software company headquartered in Geneva, Switzerland. Founded in 2011, iKentoo helps restaurateurs and hospitality professionals run and improve their businesses with an agile, affordable, and intuitive POS and business management solution.

Integration Overview

The integration between iKentoo POS and Oracle Hospitality Suite8 enables hotel bars and restaurants to post food and beverages charges to the property management system (PMS).

Integration Details

The integration enables the following:

- Send inquiries to Oracle Hospitality Suite8 PMS to check room occupancy. Inquiries can be done by room number, guest name, or Track2 data (keycard ID).
- Send room postings to Oracle Hospitality Suite8 PMS.
- Send cash or credit card postings to Oracle Hospitality Suite8 PMS.
- Ability to handle NoPost flags and CreditLimit notifications received from Oracle Hospitality Suite8 PMS.
- Support for the Credit Limit Override function, allowing a POS manager to override any credit limit set on Oracle Hospitality Suite8 PMS.
- Handle individual postings for each occupant in the room.
- Post covers.
- Void a previous posting.

ORACLE®
Validated Integration

Oracle Hospitality

Oracle Validated Integration provides customers with confidence that a partner's integration with an Oracle on-premises application is functionally sound and performs as designed. This can help customers reduce deployment risk, lower total cost of ownership, and improve the user experience related to the partner's integrated offering.
