Oracle Hospitality

Oracle Validated Integration provides customers with confidence that a partner's integration with an Oracle on-premises application is functionally sound and performs as designed. This can help customers reduce deployment risk, lower total cost of ownership, and improve the user experience related to the partner's integrated offering.

Your Room, Your Way

MyRoom leverages rich media technology to deliver an immersive experience for hotel guests, displaying floor plans, room-specific photography, and room attributes that make each room unique and personal. MyRoom uses augmented reality and other technologies to help hotels better merchandise room inventory and drive revenue, empowering guests to self-select specific rooms to satisfy unique preferences, and create emotional anticipation and positive memory markers in guests' minds prior to the stay.

Company Overview

Koridor delivers the hotel industry's first and only guest personalization platform that enables hoteliers to transition the mundane task of room selection from the front desk to the guest prior to arrival. Koridor's MyRoom platform offers guests a virtual experience leveraging extensive consumer behavior research conducted at Cornell University to understand the emotional triggers of a traveler. With headquarters in Atlanta, the company serves innovative hotels around the world.

Integration Overview

MyRoom makes use of Oracle's OPERA Exchange Interface to communicate with Oracle Hospitality OPERA property management system (PMS). This robust two-way interface supports a variety of use cases including the guest's self-selection of their specific room, room-type upgrades, room attributes, and other inventoried assets at the property.

Integration Details

The integration enables the following:

- Triggers reservations from Oracle Hospitality OPERA PMS
- Triggers inventory from Oracle Hospitality OPERA PMS
- Triggers restrictions from Oracle Hospitality OPERA PMS
- Triggers rates and packages from Oracle Hospitality OPERA PMS
- Posts room requests from MyRoom to Oracle Hospitality OPERA PMS
- Posts packages from MyRoom to Oracle Hospitality OPERA PMS
