The MASYC Group

HomeBuilder Sales Solution Validated Integration with JD Edwards EnterpriseOne 9.2

The HomeBuilder Sales Solution is a comprehensive, end-to-end solution for selling homes. It complements the functionality in Oracle's JD Edwards EnterpriseOne Homebuilder Management with the ability to manage sales office and design center operations, print sales contracts, and improve margin analysis.
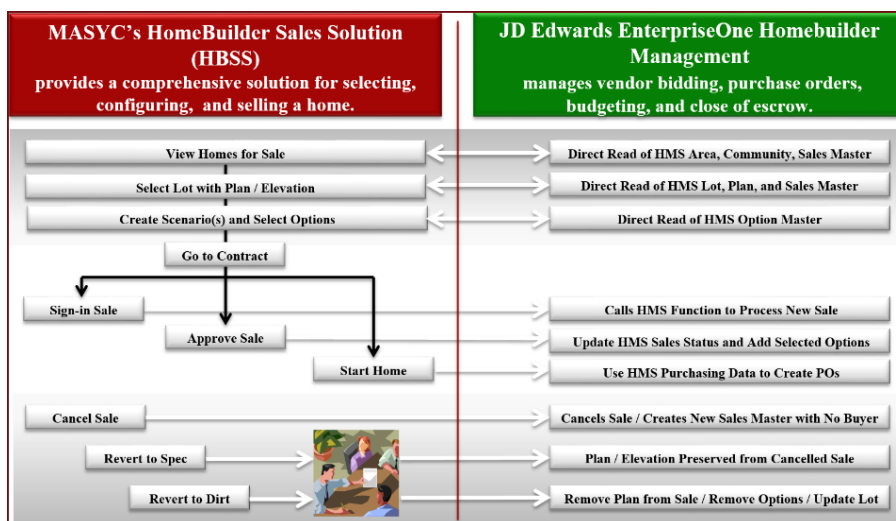

COMPANY OVERVIEW

The MASYC Group is a leading provider of JD Edwards EnterpriseOne technology and business solutions. The company strives to understand and partner with clients to make significant cost savings and provide operational improvements through secure, cutting-edge, and sustainable IT solutions. The HomeBuilder Sales Solution is the application module that represents the combination of MASYC's experience and knowledge of JD Edwards EnterpriseOne and the homebuilding industry. With a deep understanding of how homebuilders acquire and complete sales transactions, MASYC designed and built the HomeBuilder Sales Solution (system code 44S) for sales office and design center employees and their supporting corporate organization.

ORACLE
Validated Integration
JD Edwards EnterpriseOne

Oracle Validated Integration provides customers with confidence that a partner's integration with an on-premise Oracle application is functionally sound and performs as designed. This can help customers reduce deployment risk, lower total cost of ownership, and improve the user experience related to the partner's integrated offering.

The HomeBuilder Sales Solution updates the following tables in JD Edwards EnterpriseOne Homebuilder Management:

- **Sales Master (F44H501)/Lot Master (F44H201).** Certain fields in these tables are maintained by the HomeBuilder Sales Solution through the transactions it generates to create a sale, update a sale, and cancel a sale.
- **Option Selections Master (F44H511).** This table receives option selections made in the HomeBuilder Sales Solution during sales and updates sales transactions. Canceling a sale and "reverting to dirt" causes the options to be deselected.

TECHNICAL DETAILS	
Partner Environment	**Oracle Environment**
• HomeBuilder Sales Solution Version 4 • Oracle Database 19c • Oracle WebLogic Server 12c	• Oracle's JD Edwards EnterpriseOne 9.2 (64 bit) • Oracle Database 19c • Oracle WebLogic Server 12c
