Complete Guest Room Lock Management

Bittel Guesttec Doorlock Management System is an integral part of Bittel Guesttec Smart Hotel Entire Solution for modern smart hotels.

Company Overview

Shandong Bittel Intelligent Technology Co., Ltd, provides leading, international smart hotel solutions and telecommunication solutions to the hospitality market sector. Listed on the China Third Block Stock Market Exchange and Securities Exchange (ID: 870869), Bittel is positioning itself as the professional Internet of Things solution provider for special market sectors including hospitality and tourism resort markets.

Integration Overview

Bittel Guesttec Doorlock Management System provides networking electric strike doorlock and a built-in doorlock management system inside Bittel's unique peephole viewer system for guest room lock management.

By integrating with Oracle Hospitality OPERA property management system (PMS) for key services such as keycard management functions, your front desk staff is able to access all the functionality in the PMS while the Guesttec Doorlock system works quietly in the background. Keycards for Guesttec Doorlock system are made, changed or canceled automatically.

Integration Details

The integration supports the following functionality:

- Key requests, both new and duplicate
- Key delete
- Key answer

Validated Integration

Oracle Hospitality

Oracle Validated Integration provides customers with confidence that a partner's integration with an Oracle on-premises application is functionally sound and performs as designed. This can help customers reduce deployment risk, lower total cost of ownership, and improve the user experience related to the partner's integrated offering.
