SMARTHOTEL

SmartCONNECT for PMS Validated Integration with Oracle Hospitality OPERA 5.5

SmartCONNECT for PMS links third-party property management systems (PMSs) to Oracle Hospitality OPERA Room Reservation System

SmartCONNECT for PMS enables a two-way integration between Oracle Hospitality OPERA Room Reservation System and third-party PMSs so hotel chains with non-Oracle systems can benefit from Oracle Hospitality OPERA Room Reservation System.

Company Overview

With more than 20 years' experience in the hospitality industry, SmartHOTEL specializes in online distribution and delivering smart and simple software with service as a specialty. The company initially started as a PMS provider and gained experience with seamlessly integrating PMSs with hotel distribution channels. SmartHOTEL understands customer needs and the challenges hoteliers of all kind face each day.

SmartHOTEL specializes in Oracle integrations with the main focus on integrated distribution solutions to Oracle Hospitality Distribution Cloud Service (formerly myfidelio.net), Oracle Hospitality OPERA PMS, and Oracle Hospitality Suite8 solutions. SmartHOTEL is also the technology provider behind Oracle Hospitality Distribution Channel Manager Cloud Service.

Integration Overview

SmartCONNECT for PMS allows third-party PMSs to have a two-way integration with Oracle Hospitality OPERA Room Reservation System. This means hotels that use a PMS other than Oracle Hospitality OPERA PMS can still join a hotel chain that uses Oracle Hospitality OPERA Room Reservation System. With SmartCONNECT for PMS, third-party PMSs can upload rates and availability to Oracle Hospitality OPERA Room Reservation System and download reservations directly into their PMS.

Integration Details

The two-way integration enables the following actions:

- Triggers reservations from Oracle Hospitality OPERA Room Reservation System
- Posts rates from SmartCONNECT for PMS into Oracle Hospitality OPERA Room Reservation System

Oracle Validated Integration provides customers with confidence that a partner's integration with an Oracle on-premises application is functionally sound and performs as designed. This can help customers reduce deployment risk, lower total cost of ownership, and improve the user experience related to the partner's integrated offering.

- Posts restrictions from SmartCONNECT for PMS into Oracle Hospitality OPERA Room Reservation System
- Posts inventory from SmartCONNECT for PMS into Oracle Hospitality OPERA Room Reservation System
