The Oracle logo is the word "ORACLE" in white, uppercase, sans-serif font, centered within a red rectangular background.

ORACLE

### Validated Integration

#### Oracle Hospitality

Oracle Validated Integration provides customers with confidence that a partner's integration with an Oracle on-premises application is functionally sound and performs as designed. This can help customers reduce deployment risk, lower total cost of ownership, and improve the user experience related to the partner's integrated offering.

### Powerful and flexible tools to accurately manage all sales transactions

The posting interface between TCPOS.net point-of-sale (POS) solution and Oracle Hospitality OPERA property management system (PMS) enables hoteliers to honor room requests and post transactions to the customers' folio.

### Company Overview

The Zucchetti Group provides an extensive range of software and hardware solutions as well as innovative services designed and developed for companies of any size. With 3,800 employees, a global distribution network, and more than 350,000 customers, the Zucchetti Group is a leading Italian enterprise and an important player in the European IT sector. Zucchetti's portfolio includes innovative ERP, workforce management, and safety and security solutions for enterprises across many vertical sectors such as banking and insurance, public administration, venue management, tourism, fashion, hospitality, and food service.

TCPOS is Zucchetti's POS technology for the hospitality and retail industries. Zucchetti's iCore strategy converts your POS into a flexible point of service aimed at improving your customer experience in store, online, and mobile. From sales to warehouse, Zucchetti's mission is to evolve the iCore with its clients by applying digital transformation best practices and a wide solution portfolio. With a customer base of 10,000 clients and more than 65,000 installed POS systems, Zucchetti TCPOS solutions are designed, marketed, and supported by a dedicated team of more than 300 professionals in Switzerland, Germany, Austria, France, Italy, Bulgaria, Argentina, and Mexico as well as a worldwide network of certified partners.

### Integration Overview

The validated integration between the TCPOS.net POS system and Oracle Hospitality OPERA PMS links the two systems through a plug-in installed on the client. The client is connected to an intermediate TCPOS IFC that dialogs with the Oracle Hospitality IFC and is responsible for charging the posting to Oracle Hospitality OPERA PMS.

### Integration Details

The integration enables the following:

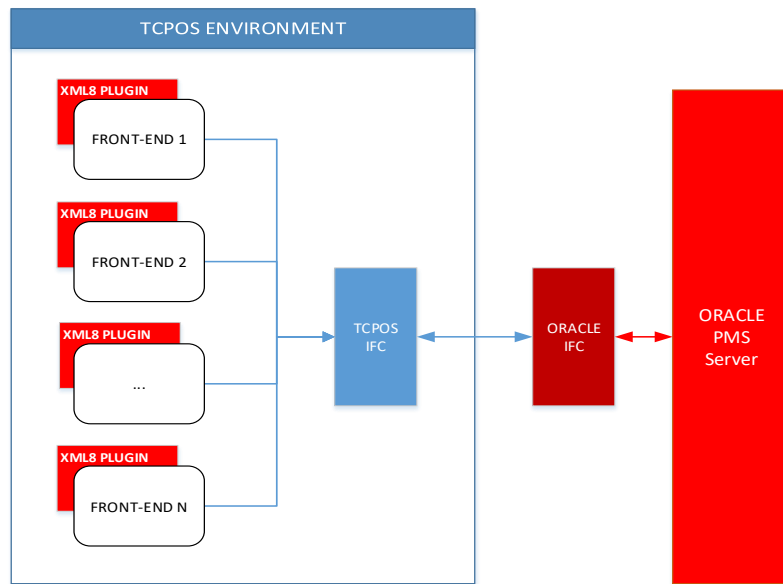

- Send inquiries to Oracle Hospitality OPERA PMS to check room occupancy. Inquiries can be done by room number, guest name, or Track2 data (keycard ID).
- Send room postings to Oracle Hospitality OPERA PMS.

**AVAILABILITY**

For additional information about consumer, operational, and enterprise solutions, contact us at:

Zucchetti Switzerland SA
