

Chart a Smarter Path to the Cloud with Oracle Consulting's Proven Phase 0 Approach

We understand that organizations like yours must continue to address critical priorities during this period of unprecedented change—including the decision to move to a new business platform. At Oracle Consulting, we are ready to help you chart your unique path to the cloud through our innovative Phase 0 program, a series of targeted, human-centered workshops designed to help you maximize the value of your Oracle technology investment.

During Phase 0, we'll collaborate with you to develop a well-defined roadmap to the cloud, gain alignment on business goals and expectations, and proactively identify and mitigate risks. Think of Phase 0 as a pre-implementation jumpstart. It's a cloud culture assessment combined with a working roadmap, providing a simple, intuitive, prescriptive solution that is easy to follow, leverages industry practices, accelerates pace, and empowers our clients to focus on what really matters—their business.

DELIVERABLES WE'LL ESTABLISH

Together, we'll chart a path forward defined by a mutual understanding of the solution, its components, and what it will take for us to succeed. By the end of our Phase 0 sessions, we'll issue a comprehensive read out that includes the following high level deliverables:

- Project Success Metrics
- Change Readiness Assessment
- Deployment Approach
- Defined Scope
- Future State Architecture
- Data Migration Strategy and Integration Inventory
- Change Management Recommendations
- Governance Model
- Resource Plan and RACI
- Implementation Investment Estimate (upon request)

KEY FEATURES

Complimentary service to qualifying customers (estimated value \$200 - 500k)

Tailored approach to your organization's needs, industry, timeline, and environment

Hands on sessions facilitated virtually or in person, tailored to your business needs

SPEAK WITH A
PHASE 0 LEADER
AND START YOUR
JOURNEY TODAY!

OUR APPROACH TO ALIGNMENT

The Phase 0 workshop sessions are designed to help you visualize your journey to the cloud, and the changes to business processes and mindset that the journey will entail. Facilitators will incorporate enterprise/global model design, human-centered design thinking, change navigation, and other industry-specific best practices into energetic and collaborative sessions.

We make it easy for you. Your only investment: the time of your allocated resources to engage with Oracle Consulting, plus pre-workshop input to our discovery questions.

Below is the framework we'll use to develop a complete deployment and risk mitigation plan:

WHAT MAKES US DIFFERENT

When you work with Oracle Consulting, you get access to all of Oracle: product development, support, and education—enabling lifecycle customer success. We bring this expertise, along with industry-specific best practices gained from successful implementations, directly to organizations like yours during Phase 0 sessions.

From working with clients to develop a vision for their cloud transformation to helping them integrate cloud culture traits into their DNA, our mission is to empower them to own their transformation and leverage their new environment for continuous innovation. We want to become your trusted advisor in charting an optimal path to the cloud for your business—and for your people.

KEY BENEFITS

- **Develop a prescriptive framework** for operational readiness, sequencing, and phasing for success with a clearly defined project proposal
- **Secure stakeholder alignment** and risk recognition on your project goals, requirements, and desired outcomes across Business and IT key stakeholders
- **Gain unparalleled insights into your existing on premise solutions** using Oracle's proprietary analysis of your current environment's unique landscape
- **Set yourself up for successful cloud adoption** by assessing your cloud culture readiness
- **Begin adopting an out of the box mindset** with the help of Oracle Consulting's deep knowledge of industry leading business practices and how they work in the cloud

LET'S GET STARTED

There's no better time than now to plan your journey to the cloud.
