

Proven Financial Strategies for Optimizing IT Investments

ORACLE
Financing

IT acquisition can be a challenge for even the most cash-rich companies. Unpredictable costs, long project payback periods, burdensome up-front investment requirements, and lengthy approval processes can delay and derail necessary projects that put even the most successful businesses at risk of falling behind the competition.

With Oracle Financing as your partner in structuring IT investments, you can:

Reduce total cost of acquisition and ownership

Because one size does not fit all for the large enterprise, Oracle Financing offers a comprehensive portfolio of flexible payment options so you can invest in the right IT solution at the right time.

Strategically align IT and business priorities

Whether you're considering an immediate point solution or a multi-phase, multi-vendor IT transformation project, Oracle Financing provides financial solutions that align with your business requirements.

Simplify total acquisition

Streamlined approvals and simple documentation give you rapid access to the technology you need, when you need it. Enjoy the convenience of acquiring your total solution — even third-party products from members of Oracle PartnerNetwork — **through one trusted source: Oracle.**
