Announcement: Oracle E-Business Suite 12.2 Premier Support Extended Through at Least 2035

In June 2018, Oracle announced a “Continuous Innovation” release model for Oracle E-Business Suite 12.2, delivering ongoing applications and technology stack updates for 12.2 without requiring a major upgrade. At the same time, we named 12.2 as the long-term support release for Oracle E-Business Suite, with Premier Support available through at least 2030.

We are now pleased to announce the extension of Premier Support for Oracle E-Business Suite 12.2 through at least 2035.
