Leaders from prominent Saudi Arabian healthcare organisations share their experiences of driving change with Oracle in this on-demand webinar.

Healthcare in Saudi Arabia is undergoing change and helping the nation towards its vision of the future. In this video, leaders in two leading local organisations share how Oracle cloud technologies are unlocking new efficiencies and capabilities in finance, HR and beyond.

MoH and SCHS
Aligned behind a shared vision

"We gained operational efficiencies seamlessly and integrated our business functions, and we transformed how we are managing Financial, HR, Supply Chain and other administrative business operations"
Yazeed Alotaibi, Saudi Arabia Ministry of Health

"Our focus is patient centric – we are implementing all our solutions around the patient using digital innovations. Oracle is a trusted partner to this journey."
Emad Kaabi, Saudi Commission for Health Specialties
