Oracle MICROS Tablet 721

The Oracle MICROS Tablet 721 blends the familiarity of a consumer mobile device with the enhanced features and durability of a commerical solution made specifically for hospitality. Oracle MICROS Tablet 721 is a rugged, compact point-of-sale soluton that increases efficiency, enhances operations, and improves cost control for hotel, casino, and cruise restaurants and bars.

Rugged, durable Oracle MICROS Tablet 721

MOBILITY DESIGNED FOR HOSPITALITY

With its rugged, seven-inch design, the Oracle MICROS Tablet 721 is the ideal choice for food and beverage operations within hotels, casinos, and cruise lines. The screen is large enough to make taking and viewing orders easy but small enough to fit into an apron pocket. Tablet batteries last up to eight hours, and even if a battery does need to be replaced during a long shift, hot-swappable capabilities mean it can be replaced without the tablet ever losing power. This means fewer interruptions to service and easier operations for staff.

Additionally, the Oracle MICROS Tablet 721 is resistant to water and dust and can withstand extreme hot and cold temperatures. Where your staff goes, the tablet goes – behind the line, into the walk-in, out by the pool. An ergonomic hand strap, as well as an optional carrying case with drop tether, makes the tablet easy to carry and helps prevent damage.

The Tablet 721 runs the same Oracle Hospitality Simphony software as any other MICROS workstation, making it easy to add tablets to an already-successful operation. The Oracle MICROS Tablet 721 also offers a variety of features to help increase staff productivity and improve guest experiences. They include: integrated Wi-Fi and Bluetooth connectivity, magnetic stripe reader, optional barcode scanner, NFC/RFID, and rear-facing camera.

RUN MULTIPLE HOSPITALITY APPLICATIONS

The Tablet 721 isn't just for point of sale. Hoteliers using OPERA Hospitality OPERA Cloud Service also can use the same tablet to run OPERA Cloud and OPERA Hotel Mobile. The Tablet 721 is perfect not only for taking dining and cocktail orders, but for busting lines at the front desk and tracking completion of housekeeping tasks.

DEVICE SPECIFICATIONS

CPU	Intel ®, Atom ™ Quad Core, 1.44 GHz (up to 1.9 GHz)
RAM	4GB
Storage	64 GB Flash
OS	Windows 10 IoT Enterprise 2016 LTSB
Display	7" LED-backlight screen with capacitive touch
Display Resolution	1280 x 800
